Mr. Ernest C. Maycrink

Dear Mr. Maycrink:

Effective 31 October 1960, all contracts, oral or written, by and between you and the United States Government, as represented by the Contracting Officer, are hereby terminated by mutual consent of the parties thereto, and in lieu thereof the following agreement is substituted.

The United States Government, as represented by the Contracting Officer, hereby contracts with you as an independent contractor for the submission of certain information and related services of a confidential nature under the following terms and conditions:

1. Compensation. In full consideration for the submission of such information and service, you will receive from the Government, payable in such an approved manner as you may direct in writing, the following:

- (a) Basic compensation in an amount calculated at the rate of \$6000 per annum.
- (b) Additional compensation in an amount calculated at the rate of \$3000 per annum for cost-of-living expenses (including quarters), effective upon your arrival at and applicable only to your contemplated permanent post of assignment overseas. Quarters will not be furnished you nor will you accept quarters provided by a cover facility without prior amendment of this agreement.

2. Taxes. Monies paid you directly or guaranteed by the Government under this paragraph constitute income for Federal tax purposes. You will be advised as to the method to be followed in reporting and paying such taxes. The method as well as the procedures used by this organization to implement its tax reporting responsibilities will be based primarily upon cover and security requirements. You herein authorize this organization to withhold taxes on said income if it determines such requirements so necessitate.

3. Travel. You will be advanced or reimbursed funds for travel and transportation expenses to and from your permanent post of duty overseas and for authorized operational travel. You may be entitled to per diem in lieu of subsistence during such travel and, when authorized, while on temporary duty away from your permanent post of assignment. All travel, transportation and per diem provided for under this paragraph must be properly authorized, and expenses incurred hereunder are subject to payment and accounting in substantial compliance with Government regulations.

4. Operational Expenses. You will be advanced or reimbursed funds for necessary operational expenses as specifically approved and financially limited by the Government. Such funds will be subject to payment and accounting in substantial conformance with applicable Government regulations.

5. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle the Government to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

RMW  
33477

6. Negotiated Benefits. (a) (1), If, in the performance of activities under this agreement, you incur an injury or illness which is not the result of your gross negligence, willful misconduct, or intemperate act, the Government will provide medical, surgical, hospital, transportation and disability benefits in such amounts and under such conditions as the Government in its sole discretion deems proper provided, however, that such benefits shall not exceed a total of \$5000 (6) the same injury or illness.

(2) If you die in the performance of activities hereunder and your death is not the result of your gross negligence, willful misconduct or intemperate act, the Government will pay the sum of \$5000 to your beneficiary(ies) less any amount paid to you under sub-paragraph (1) above if such injury or illness resulted in your death, provided that said beneficiary(ies) is acceptable to the Government at the time such payment is to be made. An acceptable beneficiary hereunder is an individual to whom payment by the U.S. Government can be made without conflicting with its avowed principles and ideals.

(b) Outstanding performance by you under this agreement and your fulfillment of obligations hereunder in an efficient manner will result in the Government undertaking your resettlement in an area mutually agreeable to both parties, to the extent deemed appropriate by the United States Government.

7. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U.S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by this organization to evidence this relationship.

8. Status. You are not an employee of the United States Government under this agreement and are not entitled to any benefits normally incident to an employee status.

9. Funding. If necessary to protect the security of this arrangement, monies due you hereunder may be funded in other than a direct manner. It is understood and agreed that any monies so funded constitute payment by the Government in satisfaction of its obligations under this agreement.

10. Cover. (a) It is anticipated that you will undertake a cover venture in the course of your performance under this agreement. Such venture must be approved by the appropriate Government representative overseeing your activities prior to its initiation. Any and all documents which you may execute in the course of said cover venture are subordinate to this agreement and any contradiction in terms which in any way amplify, extend or restrict your rights and/or obligations hereunder shall be resolved by this agreement which shall always be dominant.

(b) To provide capital for your approved cover venture the Government will loan you \$4000 to be secured by a non-interest bearing promissory note, payable on demand. Said loan will be deposited to an account in a foreign bank and a \$3000 letter of credit will be issued you against that deposit. The additional \$1000 will be released from said account, after approval by the Government representative overseeing your activities.

(c) You will submit to the Government quarterly income and expense statements on the cover venture and copies of all tax returns filed in connection therewith. Your cover accounts shall be kept separate and distinct from the bank account into which your personal compensation payments are made.

(d) You herein agree that monies loaned you by the Government shall be repaid from the profits of the cover venture, in amounts and at periodic intervals to be established by the Government representative overseeing your activities. After said loan has been completely repaid and all other obligations, such as local taxes, etc., have been made, you may retain any further profit derived from said cover venture. However, it is clearly understood and agreed that your primary obligation under this agreement is the performance of Governmental activities.

11. Secrecy. All information related to this agreement conveyed through instructions, this instrument, or otherwise, is secret and shall not be divulged to any person, organization or government in any form or manner, except as authorized by the undersigned Contracting Officer executing this agreement. It is agreed that any revelation whatsoever of the above information will constitute and be an immediate and final breach of this agreement and will result in forfeiture by you of any and all benefits which may then have accrued to you by reason of this agreement.

12. Instructions. During the term of this agreement, and in your official cover capacity you herein agree to act in conformance with instructions, oral or written given you by authorized representatives of this organization.

13. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on this organization.

14. Term. This contract is effective as of 1 November 1960, and shall continue thereafter for a period of two (2) years unless sooner terminated by the Government either:

(a) By sixty (60) days' actual notice to you from the Government, or

(b) Without prior notice, in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

Subject to the availability of appropriations, this agreement may be extended upon notice from the Government. In the event of voluntary termination on your part or termination for cause by the Government prior to the expiration of this agreement or any renewal thereof, you will not be entitled to return travel expenses to the United States. Termination or expiration of this agreement will not release you from the obligation of any security oath you may be required to take.

Report

Date 5 April 1959

Subject: AEASPIC  
DOB:

Address:

Cover for Contact: Friganza as Maj. Michael Long  
Rostedt as George Fowler.

Notes on Contact:

Rostedt and Friganza took the night train to Paris, arriving morning 6 April, and discussed the AEASPIC case with the Paris station. Rostedt briefed COS/P-1's and others on current REDSOX. Rostedt and Friganza departed to meet Subject at about 11:30 hrs., taking extreme precautions against surveillance.

Subject did not appear at the rendezvous at 12 hours. We waited until 12:30 hours when Friganza decided to visit Annick to determine if Subject had been delayed. En route to Annick Friganza changed his mind and returned to the rendezvous (Georges V) where he saw Rostedt with Subject. Subject had apparently gone to the Georges VI rendezvous (which is understandable considering the hurried circumstances of the previous parting when the rendezvous was discussed), had waited perhaps 1/2 hr. and then decided he had better check the Georges V. On arrival at the Georges V Rostedt immediately recognized him, approached the taxi which Subject had left and re-entered, looked hard at Subject who caught the significance of Rostedt's extraordinary attentions, ordered the taxi around the corner, paid him his due fare, and re-joined Rostedt. It was at this moment that Friganza returned on intuition.

The trio then went to lunch, taking a circuitous route by foot and taxi. Over lunch from about 13-15 hours Rostedt had an opportunity to acquaint himself with Subject and to put to Subject several questions concerning willingness and the job.

After lunch Friganza and Rostedt decided that under the circumstances it would be advisable to keep Subject in Paris rather than risk his arrest travelling between Paris and Ambert or returning to Gap to have his carte d'identite revalidated. Accordingly while Rostedt spent the next 1 1/2 hrs. or so with Subject, Friganza returned to the Paris Station where he asked for the use of 13 rue Weber safehouse. Paris Station had committed the safehouse for the night of 6 and 7 April as well as the morning of 8 April but beginning late afternoon 8 April the house was assigned for the use of AEASPIC. Arrangements were made to have Platipodis who knows Subject to be at the safehouse at 1630 hours (alternate 2330 hrs.) on 8 April. Subject was instructed to go to the safehouse, ring 3 longs, 2 short, whereupon he would be admitted by Platipodis. He was likewise given the name John Sandor and told that in the event of unavoidable inquiry he should claim that he had been lent the apartment by Tom Brown, a friend of John Sandor. He was instructed not to answer the phone and not immediately to answer the door. If after persistent ringing he felt obliged to answer the door, he should pretend he had drunk too much wine, was sleeping heavily, and should come to the door appearing groggy. Subject was further instructed to stay in the safehouse during daylight hours and to venture out at night only if necessary to buy food, eat, etc. He was told that Friganza would return for him sometime between 15 and 16 April.

Between 6 and 8 April Subject will stay with Annick. During the day he will avoid the house, going to movies, etc., appearing only at night to sleep.

Subject was paid Francs 49,874 (exactly \$200).

Notes on Contact:

The undersigned arrived in Paris on the morning of the 25th of March and went to the safehouse where the LCPLUTTER operator had spent the night and was shortly to meet Subject at the Cafe Les Sport near the Port Maillot. Subject passed by as we were having coffee and according to instructions waited elsewhere. We left while the operator collected Subject and took him to the house, enabling us to return at about 11 hours.

Subject was dismissed for lunch at about 1145, whereupon the operator and the undersigned returned to the Embassy office where after a quick lunch the questions for the examination were written. The operator met Subject, returned to the house, and began the examination at about 1430, it having been agreed we would appear at the safehouse promptly at 1630. We did this to find that the operator had not concluded the examination but there was sufficient time to continue which he did. The examination was completed about 1845 hours, whereupon we were informed by the operator that in his opinion Subject was not attempting to deceive on any important points, even though some of the more prosaic aspects of his biography continue to defy logical acceptance.

We then discussed future meeting arrangements with Subject: Subject will appear in front of the Cafe Georges V on the Champs Elysees at 1214 and 16 hours on 6 April. He will wait for five minutes in front of the cafe but will not enter. If we are not there he will return for the alternate. In any event alternate contact will be made through Annick. Subject was instructed to clear up his affairs in Ambert and be prepared to depart for Germany; however, it was also explained to Subject that we were not authorized to make a final commitment to Subject and that much as we regretted this, this would be left until 6 April. Subject was paid Francs 15,500 for which no receipt was obtained since we were in a hurry to catch a plane for the Hague. If Subject has any difficulties he will write Annick. He will not return to Gap. He expects to stay with Josef Dassaud in Ambert until the night of 5 April when he will travel to Paris by train. It was further agreed that on or about 4 or 5 April Subject will have sent a letter to Annick for "Mike" in which he will conform his arrival and in double talk inform us if he has had any trouble.

We discussed with Platipodis of the Paris station the need to send "Maurice" to Annick on 4 or 5 April to see if Subject had written.

## Notes on Contact:

20 March 1959: Upon the receipt of DIR \_\_\_\_\_ the undersigned borrowed a car from the Paris station on 19 March and drove that night to Moulins, arriving about 9 o'clock. From the principal hotel in this town a call was made to Subject who was informed that we would arrive at Ambert at about 12 o'clock, and we agreed to meet at the railroad station at 1200 hours. We proceeded to Vichy where we changed clothes and bathed and arrived at Ambert about 1220 -- Subject was waiting. He returned the car lent by Dassaud, one of his business partners, to the residence cum work shop at 14 rue St. Josef. We waited outside for Subject who came out, got into the car and we drove to a restaurant which we left immediately as it was too crowded and returned on foot to 14 rue St. Josef house where our conversation was held. Incidentally, Subject showed the undersigned around the work shop and demonstrated how the machine and the \_\_\_\_\_ for it are made. One cannot help but marvel at Subject's ingenuity and ability as a tinkerer and pseudo-sort of engineer. He said they are producing about 300 a month, sell a few more than this at 48,000 francs a piece (nearly \$100). However, Subject gets no income other than pocket money, free room and board where he now lives, and will not receive any until the capital outlay of his other two partners has been amortized. Taking the bull by the horns we explained to Subject the delay: A telegram had been sent to "certain colleagues" in Paris who were supposed to write a letter to be forwarded to Subject. The man to whom the telegram was sent was on leave and upon return he was not notified of the telegram we sent; consequently, Subject was not informed as he should have been. We are terribly sorry and hope that Subject would appreciate such a minor matter. In any event we reminded Subject that he had not been promised a letter on or about 1 February but rather told that he could expect to hear from us then. Subject agreed this was so.

Subject was far less interested in explanation than a decision. He rhetorically asked whether he was acceptable, adding he was obliged to assume he was not, and commenting that although there are "many two legged people in America also" he thought he was probably a unique person from the point of view of language ability, experience as an operator in dangerous situations, etc. We replied thus: One man (the psychologist) has already come all the way from the States just to see Subject and another was on his way. From this Subject could fairly conclude the importance "Headquarters" attaches to Subject's candidature and that far from being a dead issue, Subject's prospects were good, although all depended on him.

We then turned to the matter of Subject coming to Paris. Subject explained that Paul ( \_\_\_\_\_ ) had been sent by the Paris station to Annick and had not done very well. He had failed to convince Annick that he was sent by Mike (Friganza) and apparently although we did not go into the details of this, he did not get the message straight. In any case Subject immediately said that he could come to Paris anytime although he would be obliged to travel illegally. This because he had permitted his identity document to expire as of 14 February 1959. However, Subject felt he could make the journey by train without being caught because the police are not checking most trains. He did not want to travel by car because he had heard there are occasional road blocks (this may be true for the undersigned ran into one on the drive from Paris to Ambert). Subject also said he could stay as long as need by but it was absolutely essential that he not be obliged to stay at a hotel -- he could either stay with Annick or at a place put at his disposal by us.

Notes on Contact:

Knowing that the LCFLUTTER operator could get to Paris in two days we asked Subject to take the train on the morning of 21 February. He agreed to do this. He said it would be necessary for him (if he is accepted) to return to Ambert once more; it will not be necessary for him to return to Gap. After discussing this and paying Subject Francs 10,000, we drove by the railroad station where Subject checked on train schedules and we parted. In regard to the lapse of the validity of Subject's documents Subject said: After the 7-10 January meeting in Paris he had driven back to Ambert; he did not return to Gap; he has been living illegally in Ambert since his return from Paris on 11 January. He has failed to extend his document because he calculated he would leave France before the document expired. Subject surmises that if he were obliged to return to Gap he might be able to talk his way out of trouble but he might be given two weeks in jail as a sharp reminder of the necessity to validate documents promptly.

March

21 ~~February~~ 1959: Subject was met by the undersigned at the Gare Austerlitz at 2040 hours. Henry C. Ladue of the Paris station counter-surveilled the meeting and our progress from the station by foot and then by metro to the Severes Babylon station. Ladou is certain that our meeting was not surveilled. After going our own way from Ladou, we took a taxi to the Opera, switched taxis and then went to the safehouse in the rue Weber 14. After Subject washed and shaved we drove in the car provided by the station to Les Halles where we had dinner at the Pied de Cochon. We returned to the apartment at about 20 hours, talked for another hour or so while having a drink, and then retired. During this conversation Subject was encouraged to prompt to develop thoughts on a variety of matters which we hoped would tend to give us better grounds on which to assess him. Nothing of particular operational or biographic significance was discussed.

22 March 1959: After breakfast Subject was asked to wait until we returned. We went with Ladou to the airport to meet the LCFLUTTER operator. After the operator arrived we decided on a program and returned to the apartment and suggested that Subject spend the afternoon on his own and agreed on a 2230 rendezvous not far from Port Maillot and the safehouse where Subject was met. We walked to the safehouse and retired at about midnight.

23 March 1959: We arose at 8, left the apartment by about 8:40, walked to a cafe where we breakfasted, and then per arrangement passed the corner of Port Maillot and rue Malakoff at which time the LCFLUTTER operator observed us and followed us to the apartment. We showed Subject upstairs and left the apartment where we met the operator and took him upstairs and introduced him as Mr. Brown. After a very brief introduction with no explanation, we absented ourselves from the room while the operator reviewed Subject's biography in preparation for the LCFLUTTER examination. At about 1245 hours Subject left the apartment on his own, it having been agreed to meet him on the Avenue Grand Arce in front of the Tout Bien cafe. The FLUTTER operator returned to the Paris station office with us where it was agreed that the undersigned would go to Germany and return to Paris on 24 or 25 March. The operator met Subject at the rendezvous and took him to the apartment. After making arrangements for tickets, etc., we returned to the apartment where we interrupted Subject and the operator. During this brief meeting Subject was paid a further 39,000 Francs, making a total of Francs 49,000 or \$100. He was instructed to spend the night of 23 and 24 March chez Annick and we would return to see him again on 25 March.

Subject: ~~DAVID~~ DAVID

Dates of interview: 8, 9, 10 Jan 1959

1. Subject was met [redacted] and examiner and submitted to an intensive preliminary psychological examination. He was examined via a French interpreter. The interpreter has been requested to submit his own assessment to the undersigned.
2. Subject is 40 years of age. He was born on the 12th of July, 1918, in Georgia, USSR. At that time Georgia was a free country and not part of the USSR.
3. Subject regards his parents as "nobles" and he feels that their status had a great influence on his behaviour in the period which followed the family's immigration into France in 1921.
4. Subject feels he acquired a certain prejudicial class attitude and abided by the principle of noblesse oblige. In other words he feels that if you pretend to be something, you have to act accordingly. His concept of nobility has evolved into a concept of dignity and pride in his work.
5. The family left Georgia when the Subject was three. They fled before the Soviet invasion. Subject feels that his real existence began at this point. Because the father had provided himself with certain monies, the family was able to live comfortably and even opulently. However, the vicissitudes of life brought the family progressively to material degradation and financial difficulties which greatly influenced Subject's way of thinking thereafter. Whereas the family had previously lived in an artificial feudalistic way, life became tough. Subject feels that the family was brought into more direct contact with reality and that this was not necessarily a bad influence.
6. Subject actually did not want to leave Georgia. He felt it was a flight rather than a tactical retreat. Apparently he has never been able to accept this humiliating defeat and it may be that part of his current motivation for affiliation involves his perception of an opportunity to take countermeasures against the Soviets. He is a person who cannot tolerate being beaten in competition.

7. Subject was a non-disciplined child and was in constant rebellion against his teachers whom he felt did not discriminate intelligent children or pay him sufficient individual attention. Apparently his rebellious behaviour was his way of getting attention. He felt his teachers were too distant and automatically unpleasant. He engaged in practical jokes and was an activist in the school situation. As a result he was kicked out of one school after another and has a history of attending 18 different schools. The least that can be said of this strange behaviour is that he was undisciplined and has always refused to abide by the conformist attitude of his peers. On the contrary he has always felt compelled to do those things not normally done by others. The 18 schools, generally speaking, represent frustration, the seeking of an aim to pursue, and the hope that his ideal would crystallize and materialize. Subject is rather abstract in this respect. Generally, it would seem that his ideal is first of all material and perhaps also moral comfort and security. However, he has always regarded his society, through his disappointments and mortifying experiences, as a wicked and selfish in its majority. Since he felt society was selfish and mean, he expressed his dissatisfaction in the form of aggressive and destructive behaviour. Apparently Subject was a precocious child and he experienced disillusionment in his family and in society. It is as if he suddenly discovered to his great disappointment that there was no Santa Claus.

8. At first Subject felt his disillusionment was unique and peculiar to his particular life experience, but he soon discovered that his discontent was characteristic of others. He experienced this fighting attitude within himself and he reflected it in his non-conforming behaviour.

9. His mother reacted to his behaviour with over-affectionate solicitousness. She wasn't actually able to determine the reasons for his internal distress, but she was aware something was taking place within him. The mother was apparently a marked conformist who insisted that Subject abide by the social order. She took him to a psychiatrist because of his behaviour problems and because she did not advise him of what she was doing and got him to a psychiatrist on a subterfuge, and because Subject did not agree with the psychiatrist's conclusions, he did not benefit by this experience. This indicates to us that in handling Subject it

12

would be wise not to approach him as if he were the problem, but to permit him to maintain his posture that he is right and society is wrong. In other words we must avoid doing what his mother did to him.

10. Subject has always indulged in a sort of introspection and self-analysis, the purpose of which was to determine how to realize his aspirations. Another aspect of his system of ideals proceeds from the life concept of chivalry which he feels his parents inculcated. This involves the defense and the protection of the oppressed and the weak. It is sort of a Robin Hood concept which he attributes to himself. This chivalrous ideal is active to date. He feels that many people need help and he has always wanted to help others in order to help himself. In other words he is motivated to helping others in order to obtain love and affection. This need for love and affection is probably the most primary of his motives.

11. In respect to the flight of the family from Georgia, Subject feels he was too young to understand it. However, he feels he revolted against it. His idea is that one must fight, surpass and conquer. As a young boy he felt he was much stronger than several million men. This is extremely important as regards utilization of his services. First of all he is motivated to succeed out of a spirit of revenge, and secondly he is self-confident and optimistic that he will succeed despite the hazards of the undertaking. He is like a man who wants to kill an elephant -- all he wants from us is a high-powered rifle -- then he feels he would be equal to the elephant.

12. Subject also seems to reflect disappointment in his father as a personal ideal. He regards his father as a very independent person, kind but profoundly selfish, but who would nevertheless give you the shirt off his back. His father was fond of the children, loved the whole family and was happy when he saw others happy. However, Subject is convinced that if his father had succeeded, none of the things that happened in his life would have come to pass. He feels that his mother's suicide is a direct consequence of his father's failure to succeed.

13. When his father and sister returned to Georgia, Subject was driven to despair by the breaking-up of the family. The death of his mother and the departure of his father and sister was quite a threat to his security.

He tried to hold his father back and even threatened him that because of a French law according to which a foreigner must pay his taxes before he leaves the country, the father ran the risk of being arrested. When he told this to his sister, she became angry with him and replied that the father was mature enough to act as well as possible. Subject's attempt to prevent his father from leaving was conflictual for him because it represented an interference with his father's desire and project. This experience taught him that when his father had taken a decision, he would carry it through at any cost. As it happened, the result was the disintegration of the family. If Subject found himself in the same situation today, he would act in exactly the same way.

14. The father apparently returned to Georgia because he wanted to die in Georgia. Subject feels that his father was doing something important to realize his ~~objectiv~~ or to achieve his purpose. However, he feels his father accepted defeat by returning to Georgia to die. The mother did not go with the father and apparently was at her wits end after the father left. Subject regards his mother as the axle of the family and when he lost her through suicide, he feels she deserted him.

15. Subject's sister followed her father to Georgia out of a spirit of affection and sacrifice. She felt that her father needed her and Subject feels she was a tributary of his mistakes. The sister has a Ph.D. in languages and taught courses in school. At the time of Stalin the children would say "we have done this and that thanks to Stalin" and she would reply "you are individuals and you have done this or that without Stalin." As a result she was arrested and sent to a concentration camp. With the change of regimes she obtained her freedom and got her job back.

16. The sister's husband returned to Russia also and Subject believes that because he had served in the German army he may have been sent to a concentration camp. He feels the intellectual level of the brother-in-law is lower than that of the sister. The brother-in-law apparently has an inferiority complex. He emigrated to France at a much later date and apparently could not adapt himself and regretted having left Russia.

17. Subject's brother, HERTSHILL<sup>(?)</sup>, is an architect in Gap. The brother is an independent person who is conservative and probably

conforming. He has not distinguished himself in any extraordinary fashion and Subject unconsciously compares himself with his brother. It is likely that he and his brother were rivals for the mother's affection and, whereas Subject feels that his brother is jealous of him, it is likely that Subject is jealous of the brother's accomplishments. He feels that whenever he succeeds his brother is jealous. Subject is also identified with his brother in a complex and interesting way. For example, he feels that both he and his brother love the same type of women. He is not able to say much about his brother except that he is kind, somewhat vain, and that he is fond of his brother. However, it is likely that his brother may have been indirectly instrumental in Subject's recruitment. It may also be that his brother regards Subject as "Peck's bad boy" or the black sheep of the family and is interested in spurring him as regards accomplishment or success.

18. Subject was the baby of the family and still is. Whereas he was born in 1918, his brother was born in 1916 and his sister in 1915. Subject was more expressive of affection, particularly for his mother, whereas his brother was more timid, shy, and independent. When the brother saw Subject getting the mother's attention, he tried to replace Subject. This sibling rivalry may continue to date, for example, the brother learned that Subject was seeing a girl whom he knew. The brother advised the girl to leave Subject alone.

19. Subject denies he is jealous of his brother. He admits his brother has been successful but in his own sphere. Subject's new found philosophy is not to accept the fact that he has been unsuccessful, but to try to explain why he has not. In other words he seems to be motivated to obtain greater knowledge of himself.

20. Subject does not consider himself as a Georgian; this is of no importance to him. He regards the flight from Georgia as a defeat and as a loss of the motherland which he has never accepted. He feels he was a Georgian as a child but the most important aspect is that he feels he was defeated by the necessity of the family's flight from Georgia. He offers as an analogy the fact that he was committed to prison; this was a defeat for him. In other words he was not bothered by the prison life but by the fact that he made a wrong calculation in taking on a bad associate and con-

sequently being arrested and imprisoned. Therefore defeat appears to be the first factor in his life experience.

21. At a certain time in his childhood Subject lived near some former Georgian resistants who were fighting against the Soviets. Subject regarded these persons as uneducated but nevertheless \_\_\_\_\_ and affectionate. He feels he certainly must have been influenced by the exciting stories which they told him about their fights and many exploits. He feels he must also have been impressed by their patriotism. He feels they expressed themselves in a warm and enthralling manner which exalted and deeply impressed him. He feels this particular association may account for his passion which he always puts in the execution of whatever he undertakes. One of the principal determinants of this man's behaviour is apparently the very strong desire to succeed and accomplish.

22. Subject feels that throughout his school experience perhaps only one or two professors understood him. These particular professors <sup>thought</sup> that it was often necessary in life to "swallow" a great deal of useless "stuff" so that thereafter certain essential problems could be more easily digested. Subject feels that these professors were superior and that he understood them, whereas he regarded the others as apparently idiotic or worthless.

23. Subject was influenced by heroes whom he heard about such as Lindbergh, Edison, Hitler, Einstein, and several others. He realized that if such people existed, it meant that the possibility to act either for good or for evil also existed. He did not identify with any one hero in particular but always wished that he could have been one of them. He did not actually want to be one of them, but wanted to resemble heroes in general. Subject always remains-- remembers certain great men mentioned in history. He feels that these great men gave him the concept that a certain order was necessary for the level of the people. However, it appears he was disillusioned in these men and his ideals were shaken because he later learned to his dismay that they could commit abject or monstrous acts. Subject feels he has made many mistakes in life but however big these mistakes may be, he does not feel they have reflected his basic character. He feels that his character was basically based by the desire to become a worthwhile individual, even at the cost of behaving wrongly. He feels that if the only criterion for judging a man is his <sup>an</sup>

achievements, then he is a failure.

24. Subject feels that apart from the academic progress at school, he learned that it was necessary to communicate, to express himself, to understand and to explain. He feels that these are necessary for one to be a member of society.

25. Subject feels his mother was a major influence in his life. He is disappointed in his mother because he feels he loved her but she deserted him through suicide. He feels she sacrificed herself completely for the children and that she killed herself because she no longer knew how to distribute love and care. Subject began to lose regard for his father from the time he realized that his father was not giving his mother affection. However, he identifies with his father in the respect that both never achieved anything significant and that they both may have disappointed the mother. Subject misses his mother's love and he feels his life was broken up when she died. He found himself completely alone and all his illusions disappeared. He tried to find affection through others. He feels the need for affection is a big part of himself but on the other hand "I am a complicated person."

26. Subject claims he has learned the difference between a man and a woman. This is likely to have a good deal of meaning to him, particularly as regards his relationship with his mother. He regards women as illogical and to be determined by a psycho-feminine education. This is enough to tip us off that he should not be exposed to handling by females.

27. Subject claims he has learned from his personal experience in life rather than from the experience of others. In other words he has educated himself in the school of life and has derived little from the actual formal school situation. For example, he claims his mother's opinions had importance only at the time she was rendering her opinions; thereafter they were not influential as far as he was concerned. This may be important as regards training. It is likely that he would prefer to proceed with the task in actuality rather than to learn about performing the task through the experiences or training of others.

28. Subject joined the French Foreign Legion at the beginning of the war. As a foreigner and as an outsider he was subject to

mobilization into the French army, but he felt the authorities took an awful long time to make a decision in connection with him. Because of this, he joined the Foreign Legion and left immediately for North Africa feeling that thus he was becoming a member of a famous unit and at the same time fulfilling his obligations toward the French military service. In the beginning he was satisfied but later he was of the opinion that France was an incoherent mess, and he bitterly regretted that he had become acquainted with people who obviously did not know what they wanted. This experience did not have a great influence on his character except that it expressed a profound dislike for irresolute persons. This indicates that Subject is an impatient fellow who desires immediate action as regards his interest. He is impatient with postponement and unless he is dealt with promptly, he may satisfy his interests elsewhere. However, in the current instance he has no alternative and he is forced to go along with normal procedures which he may regard as a waste of time, but will accept.

29. Subject feels that he married because he regarded marriage as necessary to build a family and to make a home. He feels his marriage was a mistake because, even though he understands the value of the principles involved, principles which were inculcated by his father, it is ridiculous to marry just for the sake of principles without the necessary sentiments. He feels that at the time he was merely abiding by precepts of his father without thinking of the possible consequences. However he soon discovered, in fact, a family did not represent anything at all, and that creating the family was aggravating the incoherence and the division of society. In view point getting married meant building a wall around himself. It also meant that instead of finding a partner who complemented him, all that he obtained from the partnership was a \_\_\_\_\_ reflection of himself. He feels that the so-called spiritual intimacy is a fallacy. He claims that, sexually speaking, women are necessary but he fails to say why it is necessary to build a separate world with it.

30. As was explained above, the reasons for his marriage are connected with his family education. He does not regard his marriage as a complete fiasco. He regards his wife as very nice. He thinks he was nice, too.

They got along fairly well with one another but did not live very comfortably. He did not feel there was any evolution in the marriage and he admits to his debit that he married his wife because he wanted to experience what it meant to have children. Actually, however, he did not want children. However, he assumed that the marriage would produce a child whom he had exactly imagined. In other words he wanted an exact reproduction of himself. He obtained a daughter who was beautiful, always laughing, but because of his separation after his arrest, he has ignored what has happened with the child. His wife also had a second child by Subject who was born while he was in jail and Subject knows nothing at all about the second child. Subject met his wife in a model makers shop and believes she liked him immediately. However, if he were to do it again, he would not marry.

31. During the war when Subject was in Germany, he got involved in a false documents business and created a gang which he led. The purpose of the group was to repatriate or liberate war prisoners. The black market was a worthless branch, technically speaking, of the organization. Its only purpose was to solve financial problems. However, it is true that the black market reached such a magnitude that a person who was interested only in making money would have found it quite satisfying and sufficient in itself. As a whole, the technical efficiency of his gang satisfied him. They had freedom of motion and security. Subject was arrested because of a carelessness or a slip, not in the actual functioning of the gang, but rather on the part of one of the men whom they were helping.

32. Through this experience Subject learned that it was very interesting to know the weaknesses of authorities and to play these weaknesses or forces against one another. His emotions corresponded to a joy of being the sole master of his actions and moves. He feels that if he were to find himself in this sort of situation again, he would act in exactly the same way.

33. When Subject was arrested by the Gestapo, he was considered by the Germans to be a very important prey. He played the game and led the Germans to believe that he was an important prey in the hope that such belief would give him certain advantages. Although he realized he could be shot for only one-half of what he had done and that it was

disadvantageous for him to exaggerate in order to mix the treks and confuse the German authorities, this gave him a chance not to mention certain partners whom he made it appear as negligible. He continued this game until he saw that the end was near. For example, there was a great need of gas in Germany and he figured he could gain time by telling the Germans he had invented a very interesting motor which they could profitably use. The Germans took his offer into consideration and postponed his execution. Shortly thereafter he was liberated by the Americans.

34. This vignette indicates that Subject has the developed capacity of a con man and that he is capable of imaginatively talking himself out of rather tight situations. This, of course, is an outstanding qualification as regards the requirements of the project.

35. Subject attacked a bank in 1950. At the time he was married and was the father of one child. He was working in a model makers' shop and although he was not well off, he was earning a decent living. However, because of his love for risk and out of friendship for another fellow, he agreed to participate in the bank attack. Apparently the other fellow trusted Subject because he knew of Subject's war activities and he figured that because Subject had been able to accomplish certain illegal activities that he was quite capable of attacking a bank. The attack was carefully planned. Because there were only two on the team they were compelled in view of the smallness of his staff to give extra attention to their plan.

36. According to Subject he was close to this young friend who solicited his financial assistance. At first, Subject felt that the other fellow was crazy to dare to attack a bank. He also had the normal twinge of conscience and asked himself the question "is it right to do harm by robbing a bank?" Subject never felt that the two alone would be able to attack the bank successfully. Consequently, they determined to knock over a jewelry shop first. At each point in the developments Subject wanted to withdraw from the whole deal by saying "if my mother learned of this, she would die." They postponed the job indefinitely. However, his mother died in the meantime and his friend again approached him and told him that now that his mother was dead, there was no longer such a danger. Subsequently they knocked over the jewelry store.

37. Subject's chief motivation for such an activity appears to be the following: (a) Friendship. Apparently Subject will do anything for a friend. (b) Action. Apparently Subject relishes novelty and excitement and daring-do. Apparently he is a Jesse James type. (c) Emotional outlet for success of planning. Apparently Subject indulges himself in problem-solving and obtains a compulsive satisfaction if his plans succeed. In other words, he is motivated to carry out such an action because of his displaced interest in successfully engineering and accomplishing a job. (d) Money. Subject apparently is not motivated for material reward. In the case of the robbery his friend got 3/4 of the take and Subject got 1/4. Subject was content not to spend his money freely because his wife might become suspicious.

38. However, the friend returned after having spent his money. Previously Subject had told him "you got your money for the marriage; now leave me alone." However, the friend had not married and was now desirous of robbing a bank in order to finance another intended marriage. Subject agreed that this would be the last job. They cased the joint very carefully and then committed the act. The other fellow apparently threw his money around, was arrested, and squealed. The police came to Subject's place, found a \_\_\_\_\_, and he was arrested, in his flight to the Spanish border. Subject was fleeing to the Pyrenees because he had learned that his bank deal partner had been arrested and had talked, and that the police were after him. Subject voluntarily admits that he lost control over himself and that he had failed to plan in case he failed and had to flee. He had not foreseen or prepared himself for such a consequence. If he were to find himself again in the same situation, he would prepare an escape even if it were only necessary for the satisfactory planning of the project.

39. However, the question which arises in this examiner's mind is why Subject panicked in his flight. It could have been that he unconsciously wanted to get caught and to be punished in order to relieve his guilt. If this is so, then important consideration should be given to this aspect of Subject's personality as regards planning the project.

40. When he was jailed by the French police he was somewhat depressed by the fact that he had greatly disappointed his close relatives and because he was looked upon as a noisy and rash fellow rather than as a man capable of carrying out a crime.

41. Subject feels he failed badly when he was arrested by the Germans and also when he was arrested by the French. He feels these two failures are consequences of the poor manner in which he chose his friends. He feels it is now up to him to take all the necessary precautions in order to avoid the same pitfalls in the future.

42. There have been times in this man's life when he felt that the entire world seemed to conspire against him and when everything seemed to collapse before him. Yet he has always felt there were ways to get out of a mess principally by virtue of working. He continues to believe that unless a man is so weak both physically and morally, it is always possible for him to get back on his feet or at least to hope that this is possible. Consequently, even when he was broke, Subject always believed there was a possibility to fight and conquer. It is likely he will always have hope and optimism.

43. As regards his philosophy on the two projects which involved liberating French prisoners and the bank attack, he was betrayed by another. Actually, however, he could not have become angry at these persons because he felt his betrayal was unimportant. However, these persons lost his esteem because he feels there are certain moral values which he holds dear, namely friendship. This would indicate that he is more in contempt of himself for having miscalculated than angry with the other person for having betrayed him. However, Subject does not feel that any of his mistakes, regardless of their size and consequence, have serious consequences as regards his near or distant future. There is no question that his mistakes have seriously reduced his circumstances of life, but he is optimistic and it is likely he regards this assignment as a golden opportunity which not only permits him a chance of success, but does not censure him for his past deeds. Consequently, he feels that to be discouraged about the future is nonsense for if there is a future, there is hope.

44. Although Subject has seen many things in his life and has had many opportunities to become angry, he feels he has never completely lost self control. He feels he has always been the master of his actions at all times and that these actions could have been changed by his own volition.

45. If Subject has ever been ashamed of himself, it must have been when his behaviour was wrongly interpreted by persons whom he loved or who loved him.

46. Subject tends to become embarrassed and confused when certain persons who ask or accept something from him display too much gratitude. In other words, too large a dose of affection will unseat Subject despite the fact that he continually solicits affection.

47. Subject has continually deceived and disappointed his mother because every time she started him in a new school, she made him promise he would behave nicely, but each time he was thrown out of school. He is convinced she wanted this for his good and not for the satisfaction of having a perfect child. However, it is likely that the mother's over-solicitousness was actually compensatory for her basic rejection of Subject. Therefore, she wanted him to be perfect so that she could love him. Consequently, it is <sup>it</sup> likely that she did things for him, but she did things with him for herself. In other words, she wanted him to be perfect so that he could be worthy of her love. He was not perfect, probably did not obtain her love, and consequently is continually seeking the love of other persons. However, he cannot accept this fact as regards his mother and denies she did not act in his interest. One of his chief defenses is denial, that is, simply assuming the attitude that such and such was not true when he probably believes it was true.

48. Subject's actions are often impulsive and unreasoned. Such irrational behaviour usually takes place with another person despite the fact that there may be no particular tie or affection between him and the other person. Subject is unable to explain why this is so and intellectually realizes that any explanations which he might offer are not sufficient to explain such behaviour and his emotional state. In other words, this man's impulsiveness and tendency to behave irrationally and to his own disadvantage and in his own disinterest amounts to a compulsion which is sufficient to determine his behaviour but which is unconscious and not

available to rational analysis, or even awareness. In this respect he is propelled by an uncontrollable force. This is an important point of consideration as regards his utilization in this project.

49. Subject's left index finger and thumb are missing. He lost these in an explosion. This occurred in Germany when he was involved in the repatriation deal. After the bombing of Berlin he picked up among the ruins an unexploded bomb of British origin and took it home to salvage the explosive which he might use in various ways. While he was removing the detonator which was probably stuck in its receptacle, the detonator exploded in his fingers. Subject does not regret the fact that he tried to dismantle the bomb because he feels he has learned that one should keep his hands away from certain things. The explosion occurred so quickly that there was no immediate pain but the people around him became panicky. He remained cold blooded and gave the order to remove all things which were there because the explosion undoubtedly alerted the police. The police came and he explained that he had played with a fountain pen which had burst. The policemen strongly advised him never again to pick up objects dropped by the enemy. They took cognizance of his declarations and went away. The Red Cross took care of his wounds.

50. Subject does not think he will be very different in the future from what he is now. However, he feels his material situation will have improved. He does not mean financially but socially. He naively hopes that the world will change and there will be no discrimination. He also hopes to acquire, if necessary, a nationality in which case he will feel he actually belongs to society. However, he feels that society is anxious to stamp and label individuals and it may be that he would prefer to be an individualist who is outside of society than to be a member of society who is required to conform. Since this person lives in the present, it is very difficult for him to imagine what his future will be.

51. Despite the fact that this man is motivated by rather vivid ideals, he still strikes the examiner as a practical realist who thinks and acts in a matter of fact manner. He has experienced a good deal of life and he is quite sophisticated.

52. Subject feels that a friend would regard him as unstable, affectionate, and a day dreamer.

53. Subject feels that a critic would say of him that the majority of his commercial undertakings have brought results which are considerably lower than hoped for. Consequently, he feels he is either an optimist or a joker, or else his views on the possibilities of accomplishing things are not very healthy.

54. In his defense he emphasizes that in his opinion the value of an achievement does not consist of its spectacular magnitude or in its multiplicity. For example, he feels it is not necessary to say "good morning" 100 times in order to understand the meaning and purpose of "good morning." Also he does not feel it is necessary to mass produce a machine in order to fully understand its function. However, he realizes that, commercially speaking, it is more rational to mass produce the machine but the repetition does not interest him. In his opinion the creative idea and the prototype have a much greater value and importance than the setting up of the factory which will popularize the prototype. To illustrate his feeling further he is of the opinion that one single thought from a great thinker appears to him to be much more valuable than the millions of books which are published yearly.

55. In describing himself Subject reveals that he always tries his hardest to keep his promises. He also feels that he sometimes appears to talk somewhat rashly but he feels this is due to the fact that he thinks fast and he is able to see quickly the components and the essence of a problem in its various prospectives. He is able to rapidly synthesize. In other words he learns extremely fast and he gets the point immediately. He is so quick that he will understand what you are trying to say before you finish the sentence.

56. Subject is unable to see himself in terms of what he would like to be. In order for him to display himself, it would be necessary that he would be another person altogether. However, he feels that, everything relative, perhaps he should show more "strength of character, be a little more compromising, more realistic, and less sentimental. However, this would imply that he would then find himself in an environment in which there was no room for sentiment -- in which case his personality would

out of place.

57. It is Subject's experience that his friends love him for what he is. He likes his friends as they are, probably because they are as they are. The idea of attempting to change a friend is unthinkable for him. He loves them for their bad points as well as their good points.

58. Subject is an optimist but also a pessimist. He feels he will never be able to reach his ideals because his material ideal (social reform) is so distant that he would need to lead many \_\_\_\_\_ in order to attain it. It might be unfair to call this man a pessimist; it is more likely he is a realist and perhaps a cynic.

59. This man denies that he has any interest or emotional attachment to France at this time. However, it is likely he was patriotic at the time of the war. Since he has been branded a criminal and has been deprived of certain rights and privileges, he now perhaps feels rejected and in turn is rejecting France as his fatherland. Nevertheless, he strikes the examiner as a true Frenchman -- he thinks and feels like a Frenchman and is certainly not a Russian in his personality. It is likely that he identifies the French authorities with the police. He cannot tolerate rejecting attitudes. He is like an outsider who is looking in. It may be he has the "sour grapes" attitude by which he feels that since he cannot have what he wants, it is not too good anyway.

60. Subject is not a planner. Despite his interest in invention and the fact that he has pulled off a number of capers, he is more of an instigator, a leader, and an executor. In order for him to be successful in future projects, it is necessary that someone else plan and then tell him exactly what to do.

61. Subject is currently involved in the invention business which he started alone. He is the owner and exploiter of several patents and certain persons are financially and technically interested in his inventions. He is faced with a problem at this time. He is involved in the initial and preliminary phases with us and consequently is put on the fence as regards his invention business. Furthermore, if he were to join us, he would relinquish everything to his business partners.

62. This person will open himself up readily to an open personality. He will be secretive with an inhibited or secretive personality. Consequently, the best person to work with this individual is a direct, expressive and visible personality.

63. This person's social drives seem to involve: (a) General improvement of living conditions for everybody; in other words he is a humanitarian. He is not necessarily an activistic social reformer. (b) Improvement of his own standard of living. He has an inclination to better things and he feels this is the disease of all inventors.

64. Subject expresses himself freely, is discursive, voluble, and is able to carry on a conversation indefinitely. This is typically French but, in particular, it represents an oral characteristic. In other words, he is all mouth. He both expresses himself orally and he is driven by desire to obtain oral supplies by incorporation. What this means is that he will eat you up.

65. Subject reflects superior intelligence, is capable of abstract conceptualization, and is able to deal in symbols.

66. Subject is a narcissistic character who feels that because others don't love him, he needs to love himself. In other words, he is quite in love with himself and acts accordingly.

67. Subject tends to rationalize and to offer socially acceptable reasons for his individualistic behavior.

68. Subject strives chiefly for emotional satisfaction.

69. Subject is ~~an~~ altruistic but at the same time he is selfish. He will do things for the community with the hope of getting something out of it for himself. Both of these drives merge in a unitary fashion. He is motivated by both at the same time.

70. Subject denies nationalistic motives for his actions and prefers to regard them as being primarily humanitarian. Subject is action-oriented and loves to take risk and gets a kick out of excitement and adventure.

71. Subject acts because he thinks he is right.

72. Subject acts because he thinks he will succeed and because he regards what he undertakes as important. He is egotistical in this regard.

73. Subject needs to prove to others that he is successful. He is self confident in his prowess but is insecure that others may not regard him as adequate as he feels he is.

74. It is interesting to note that Subject participated in the release of the 13 French prisoners not out of patriotic motives, but to satisfy his taste for action. If they were German prisoners, he would have done the same thing. Actually, Subject admired the German army, had sympathy for Germans, but did not wish the French to be harmed. This is quite paradoxical but understandable in terms of the Subject's personality. His emotionalized ideals are not defined in terms of politics or nationalities, but are determined by a vague desire to help others who need it. This combination can mislead him and get him into difficulty; for example, his accomplice in the bank robbery.

75. Subject is a rank individualist. He is a non-conformist. However, he realizes he must cope with the community, must sacrifice for the \_\_\_\_\_ of the community, and must not harm others. In this regard it is unlikely that Subject has ever committed physical assault, nor is it likely that he would in the future. No matter what the other person is or represents to Subject, he is still a human being whom Subject respects.

76. Although Subject is basically an exhibitionist, he is not inclined to bragging or to exhibit himself in a transparent or patent fashion. He is too sophisticated. However, he needs attention and is likely to do things in order to get attention. This is what he did in 18 schools.

77. As was previously mentioned, Subject helped French prisoners get back to France during the war. He thought it was the right thing to do but did not do it just for France. He was paid for it but he gave his money to help the prisoners. In terms of his hierarchy of motives, it is likely that this person acts according to what he considers to be right. He also expresses self pride in doing the outstanding, the difficult,

and for which he is not necessarily being paid. He acts out of principle, with no special reason. He helped the French prisoners despite the fact that he had sympathy for the Germans. However, his sympathy for the Germans was based on the fact that some Georgians had relatives in Germany and he preferred that the Germans would defeat the Russians.

78. Another reason he helped the French prisoners was that he felt that they were suffering and because they were suffering, he wanted to relieve them by helping them return to their country. Thus he was bent on nurturance. He always stands ready to help someone who is in need.

79. Subject's motivation for affiliation is positive, spontaneous, voluntary, and intense. He likes the Americans but finds it a bit difficult to analyze this sentiment. He feels the Americans have made certain political mistakes but they reflected a fundamental and basic sincerity which he likes. He understands the United States has political interest but he is willing to go along out of admiration for the sincerity of the Americans. He is not looking for special compensation. Generally, he is quite willing to do what is asked without rational reasons. In other words, his motivation is typically emotional and is understandable in terms of his character organization. He feels that a person is capable of doing anything for love or nothing. He is inclined to put things on a personal basis. He doesn't belong to any community. He feels his early years in Georgia have had no effect on his way of thinking or on his way of perceiving life. He likes the liberty which exists in America and the fact that people are treated as individuals rather than as numbers.

80. Subject's motives are genuine and are compatible with his outlook on life. They are not necessarily original or sophisticated but they are personal and therefore bona fide. Furthermore, Subject is really on the shelf in Gap. He is controlled in his movements and is restricted in his aspirations and consequently is unable to realize his freedom and to develop himself as an individual. Consequently, the assignment represents a unique opportunity for him to rise above his present restricted level of existence.

81. Subject is a very sensitive person and he attaches great importance to events of life.

82. Another important characteristic is his curiosity and his interest for ~~speculation~~

83. Another interesting proclivity is Subject's tendency to assume blame for the mistakes of others even when he is not necessarily guilty. As a child he was gifted but undisciplined and an unsuitable student who couldn't concentrate and adapt to the school situation. As a result he was always in trouble but, more interestingly, he was always glad to assume responsibility for the anti-social actions of others. Whether he did this for masochistic reasons or because he wanted to obtain the approval of others for whom he sacrificed is difficult to determine. What is true, however, is that he will submit himself for punishment even though he has not done wrong. He may do this out of friendship in order to have others feel grateful to him. He has the attitude he should be punished for doing wrong, but should not be degraded for doing right. Subject has always realized that he has needed help as regards his emotional problems. He likes to be helped materially, not as and itself (?) but because material help involves the implication of moral help. For example, a dentist in Gap offered to help Subject in his inventions without asking for advantages. This means a lot to Subject. He attaches small importance to money and he derives a tremendous satisfaction out of helping others or being helped.

84. Subject reflects a tremendous vitality that has, in the past, expressed itself through false attempts such as the bank robbery, etc. He feels he is not being used as he should and that there is a power within himself, a creative urge of movement, a power of realization. It is highly emotionally charged and he feels he is capable of doing much more than he has in the past. Although he feels he is a complicated person, he does not feel he is difficult to understand.

85. Subject likes to act intelligently and sensibly. He strives for efficiency. For example, ~~maxxxx~~ if a person were to ask him to open a window, he feels it is up to him to decide as regards the proper method. The efficiency plus the results are his rewards. Consequently, he likes practical work which involves an intellectual effort.

86. Subject has a highly developed verbal intelligence and he is able to amplify and elaborate on his ideas.

87. Prior to the last session on the 10th of January Subject was routinely contacted by the French police who were investigating his activities in Paris at this time. As a result of this contact, he was markedly apprehensive and pre-occupied with the seriousness of this visit by the police and was not able to freely devote himself to psychological analysis as heretofore. The important point here is that Subject is an extremely alert and vigilant person. His primary motive is, of course, self-preservation and he is likely to over-react and to become emotionally upset with provocation. He needs the guiding influence of a more mature and experienced person who is in control of the situation.

88. Another important aspect of his relationship with us appears to be the fact that he consciously or unconsciously feels he has "arrived" and is acceptable to us. In other words he feels that perhaps a decision has been made which is in his favor. This reflects his own desire to be accepted together with his estimation of the situation.

89. This individual, despite his past exploits, is not necessarily a hostile person. In other words he will not do harm nor will he hurt others who are weaker than himself. He will act out of exigency but he will deliberately avoid being sadistic or wantonly cruel.

90. For some reason Subject exhibits a marked degree of loneliness and isolation at this time. He seems to be seeking companionship.

91. Subject prefers to work alone as regards technical research, but as regards the execution of an operation he prefers to be with someone or part of an organization. He knows he can rely upon himself when he is alone and that others had been unreliable in his past. However, if it is necessary for him to work with two or more individuals, he will accept it.

92. Subject admits of physical inferiority feelings by virtue of his size and strength but he denies he has feelings of intellectual inferiority. He depends more upon his mental faculties than upon his physical. "I have no fear of an elephant if I have a gun."

93. Subject is a stubborn fellow who does not like to be defeated and he strives to conquer.

94. Subject always looks for causes. He is no magical thinker but tends to be rational and realistic despite his strong emotional re-activity which can be almost explosive at times.

95. Subject particularly strives not to be regarded as bad or evil. In fact, he is not a criminal type but is a neurotic character who has expressed his conflicts and difficulties in non-conforming behaviour. At the same time he is not anti-social. He is a person who has differences of opinion and conflicts with the social order.

96. Subject does not regard himself as an expert or \_\_\_\_\_ . He realizes his short comings and he hopes his \_\_\_\_\_ will be complemented by training.

97. Subject relies quite heavily upon humor for relief of tension and as a defense against the development of anxiety and inter-personal relationships.

98. An important aspect of this man's personality and history would appear to be his so-called accident proneness. He is like the cat in the Disney film who, while chasing the mouse and having his entire attention directed to the catching and incorporation of the mouse, inadvertently gets himself run over by a truck. His first reaction to being splattered by the truck is one of disappointment as regards not arriving at the goal; i.e., catching the mouse. He thereupon acts upon feelings of revenge on the mouse for having caused his unfortunate accident. In addition, this example signifies that Subject is likely to keep his eye too much upon the goal and insufficiently upon the hazards involved in reaching the goal. It may be argued that Subject's philosophy in his past operations are related in some manner to his lack of attention to such details. His history is that of the unlucky cat who manages to get himself run over successfully.

99. This person can be quite discomposd by the surprise of unexpected occurrences.

100. Despite defeat Subject is able to pick himself up, figure things out, start all over in a more systematic way, and continue in his pursuit of his goal. Consequently, he does learn by experience. His mistakes are

chiefly due to the fact that he is or has been "stupid" or impulsive -- stupid, impulsive, immature and inexperienced.

101. Subject is capable of experiencing melancholy or depressive mood swings. However, he maintains a gay facade and he attempts to relieve his depressive feelings with lightness. Underneath the gay appearance, however, is seriousness. One of the chief motives is his curiosity. He seeks the unknown but when he approaches the unknown, he experiences a certain feeling which he recognizes as a threat to his emotional security and he is ambivalent about proceeding or withdrawing. He has an internal fear of something which he doesn't know or understand. Because of this it may be necessary to provide him with firm support, guidance, and consideration of all the possible eventualities. He has a fear of getting himself into something which he cannot get out of and his immediate reaction is to turn around and go away without having solved the problem. Consequently, he needs a person of greater intelligence who is able to help him to evaluate the realities of his situation or predicament. It must be kept in mind that his self-preservation is stronger than his desire to solve problems.

102. Subject is likely to be loyal to a superior and may even be critical of himself in relation to the superior. In other words, he would like to be as useful as possible in order to express his loyalty, but may feel inadequate in that he requires the protection of his superior.

103. This person puts no stock in emblems or signs of rank or reputation. He regards such signs as identifying labels only and is not impressed or motivated for glory symbols. If he were to accomplish an outstanding feat, he would not want a medal -- all he would want was a remark from an important figure to the effect "well done, thank you." He feels it is sufficient only for him to know he has done well.

104. Subject will attempt to assume leadership on the team but it may be that if his partner is superior, he would be a better follower than he would be a leader of a less adequate person. He is more of a dependent than independent person in terms of his inter-personal relationships; furthermore, he acts on sentiment and impulse and consequently his judgment is questionable. This would indicate that he would work better with a more sober-minded, calculating individual. He is likely

to work best with a person whom he respects and with whom he enjoys a friendly but authoritative relationship.

105. There is no reason why this person cannot be handled by an experienced, mature case officer.

106. In view of the supposed length of the mission, it is likely that a short term operation would be more compatible with Subject's assets and liabilities than a long term affair.

107. As regards the requirements of the project, it is understood that the more desirable qualifications would reflect intelligence, resourcefulness, mechanical talent, small man team ability, infiltration-exfiltration capability, good health, physical stamina, and motivation. Subject satisfies all these criteria. The other factors which he exhibits do not necessarily vitiate his positive features.

TSD/TRAINING EVALUATION

NAME WIROGUE

DIVISION AF/W/1

SUBJECT Tutorial Secret Writing

DATES TRAINED 2-4 November 1960

1. During the three-day period WIROGUE received some six hours training in the operational usage of Secret Writing, covering the specifics of his own components of the two SW systems assigned for his operation. The instruction was given in an AF safehouse and was presented entirely in English.

2. In consonance with his own requirements the agent was given a briefing in the principles and practices of SW as a clandestine means of communication in covert operations,--plans at this writing envisage the use of SW only for emergency commo. It was repeatedly emphasized that the success of an SW letter depends 50% upon the unobtrusive "normalcy" of the open text and 50% upon the preparation of the SW text itself.

3. Terminal Evaluation --

a. WIROGUE demonstrated that he could adequately prepare letters bearing a carbon-type secret ink which would meet operational requirements. He is a very meticulous worker and possesses a high degree of manual dexterity--ambidextrously, yet!

b. He quite adequately mastered the development procedures for his assigned receiving system.

4. The agent's training specifically covered the following:

- a. Writing techniques with a carbon-type ink
- b. Scorch development of SW
- c. Standard defense measures for carbon-ink writing
- d. Use of glancing light in defensive and offensive examination for SW
- e. Relative placements of the SW and overt texts on the lettersheet
- f. Discussion of cover letters and indicators.

233477

5. The operational supplies passed to the Instructor by SAB were issued to WIROQUE at the completion of the training.

CI/CE Reflections:

1. WIROQUE in the opening phases of the instruction indicated (from a sense of modesty, I presume) that he was completely unfamiliar with SW. During training sessions the caliber of his questions, observations and even of some of the steps in SW technique which he independently suggested for use all definitely indicated to the writer that he was quite familiar and/or somewhat experienced in SW practices.

Mr. Ernest G. Maycrink

Dear Mr. Maycrink,

*31 October*  
*31 October*  
Effective ~~21 October~~ 1960, all contracts, oral or written, by and between you and the United States Government, as represented by the Contracting Officer, are hereby terminated by mutual consent of the parties thereto, and in lieu thereof the following agreement is substituted.

The United States Government, as represented by the Contracting Officer, hereby contracts with you as an independent contractor for the submission of certain information and related services of a confidential nature under the following terms and conditions:

1. Compensation. In full consideration for the submission of such information and services, you will receive from the Government, payable in such an approved manner as you may direct in writing, the following:

- (a) Basic compensation in an amount calculated at the rate of \$6000 per annum.
- (b) Additional compensation in an amount calculated at the rate of \$3000 per annum for cost-of-living expenses (including quarters), effective upon your arrival at and applicable only to your contemplated permanent post of assignment overseas. Quarters will not be furnished you nor will you accept quarters provided by a cover facility without prior amendment of this agreement.

2. Taxes. Monies paid you directly or guaranteed by the Government under this paragraph constitute income for Federal tax purposes. You will be advised as to the method to be followed in reporting and paying such taxes. The method as well as the procedures used by this organization to implement its tax reporting responsibilities will be based primarily upon cover and security requirements. You herein authorize this organization to withhold taxes on said income if it determines such requirements so necessitate.

3. Travel. ?

4. Operational Expenses. You will be advanced or reimbursed funds for necessary operational expenses as specifically approved and financially limited by the Government. Such funds will be subject to payment and accounting in substantial conformance with applicable Government regulations.

201-233477

5. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle the Government to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

6. Negotiated Benefits. (a) (1) If, in the performance of activities under this agreement, you incur an injury or illness which is not the result of your gross negligence, willful misconduct, or intemperate act, the Government will provide medical, surgical, hospital, transportation and disability benefits in such amounts and under such conditions as the Government in its sole discretion deems proper provided, however, that such benefits shall not exceed a total of \$5000 for the same injury or illness.

(2) If you die in the performance of activities hereunder and your death is not the result of your gross negligence, willful misconduct or intemperate act, the Government will pay the sum of \$5000 to your beneficiary(ies) less any amount paid to you under sub-paragraph (1) above if such injury or illness resulted in your death, provided that said beneficiary(ies) is acceptable to the Government at the time such payment is to be made. An acceptable beneficiary hereunder is an individual to whom payment by the U.S. Government can be made without conflicting with its avowed principles and ideals.

(b) Outstanding performance by you under this agreement and your fulfillment of obligations hereunder in an efficient manner will result in the Government undertaking your resettlement in an area mutually agreeable to both parties, to the extent deemed appropriate by the United States Government.

7. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U.S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by this organization to evidence this relationship.

8. Status. You are not an employee of the United States Government under this agreement and are not entitled to any benefits normally incident to an employee status.

9. Funding. If necessary to protect the security of this arrangement, monies due you hereunder may be funded in other than a direct manner. It is understood and agreed that any monies so funded constitute payment by the Government in satisfaction of its obligations under this agreement.

10. Cover. (a) It is anticipated that you will undertake a cover venture in the course of your performance under this agreement. Such venture must be approved by the appropriate Government representative overseeing your activities prior to its initiation. Any and all documents which you may execute in the course of said cover venture are subordinate to this agreement and any contradiction in terms which in any way amplify, extend or restrict your rights and/or obligations hereunder shall be resolved by this agreement which shall always be dominant.

(b) To provide capital for your approved cover venture the Government will loan you \$4000 to be secured by a non-interest bearing promissory note, payable on demand. Said loan will be deposited to an account in a foreign bank and a \$3000 letter of credit will be issued you against that deposit. The additional \$1000 will be released from said account, after approval by the Government representative overseeing your activities.

(c) You will submit to the Government quarterly income and expense statements on the cover venture and copies of all tax returns filed in connection therewith. Your cover accounts shall be kept separate and distinct from the bank account into which your personal compensation payments are made. 1

(d) You herein agree that monies loaned you by the Government shall be repaid from the profits of the cover venture, in amounts and at periodic intervals to be established by the Government representative overseeing your activities. After said loan has been completely repaid and all other obligations, such as local taxes, etc., have been made, you may retain any further profit derived from said cover venture. However, it is clearly understood and agreed that your primary obligation under this agreement is the performance of Governmental activities.

11. Secrecy. All information related to this agreement conveyed through instructions, this instrument, or otherwise, is secret and shall not be divulged to any person, organization or government in any form or manner, except as authorized by the undersigned Contracting Officer executing this agreement. It is agreed that any revelation whatsoever of the above information will constitute and be an immediate and final breach of this agreement and will result in forfeiture by

you of any and all benefits which may hereinafter accrue to you by reason of this agreement.

12. Instructions. During the term of this agreement, and in your official business capacity you hereby agree to act in conformance with instructions, oral or written given you by authorized representatives of this organization.

13. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on this organization.

14. Term. This contract is effective as of 2 November 1960, and shall continue thereafter for a period of two (2) years unless sooner terminated by the Government either:

(a) By \_\_\_\_\_ actual notice to you from the Government, or

(b) Without prior notice, in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

Subject to the availability of appropriations, this agreement may be extended upon notice from the Government. In the event of voluntary termination on your part or termination for cause by the Government prior to the expiration of this agreement or any renewal thereof, you will not be entitled to return travel expenses to the United States. Termination of this agreement will not release you from the obligation of any security oath you may be required to take.

<p>A. DIR 08782 (OUT 86554) B. LEOP 0225 (IN 36750)</p> <p>1. At this writing it is anticipated that WIROGUE/1 will be on the Leopoldville scene on the first of December.</p> <p>2. WIROGUE/1 had originally been recruited in Europe for a REDSOX operation. He was flown to FBIRDE "black" and underwent an extensive training program. This included survival, small arms and other similar type FM training. After a year of such training the project failed to materialize, as a result subject was preparing for resettlement in South America. The AF/Division took interest in WIROGUE/1 and after an assessment decided that with his peculiar background, talents and general makeup he could effectively be utilized along the lines cited in references A. On 21 October 1960 the case was transferred officially to the Africa Division.</p> <p>3. Since that date to the present, every effort has been made to psychologically orient WIROGUE/1 for this assignment and to prepare him operationally for its fulfillment. To insure the security of the operation, prevent any identification with ODYOKE and/or KUBARK, and to preclude any unexpected uncovering of WIROGUE/1's past which would associate him with his pre-KUBARK life, a number of basic steps were taken. These were:</p> <p>a. WIROGUE/1 underwent plastic surgery, which changed the shape of his nose.</p> <p>b. A toupee had been made for his constant use. This and the plastic surgery have altered him sufficiently to obviate any recognition.</p>

c. Documentation prepared with accompanying cover story to show that WISOGUE/1 is an Austrian and who has never had ODYCKE connections, nor ever been in WEINIZ. (See separate cover attachment A).

4. It is planned at this time to take WISOGUE/1 "black" to Germany. There he will be met by the undersigned, given his Austrian documentation, contact instructions and letter of credit, stripped of any WEINIZ clothing or personal effects, and dispatched. He is to proceed to Leopoldville on his own and upon arrival make contact. The cover assignment for subject is temporarily left open, although he has been told to look into the prospects of opening a photo or general repair shop. He has actually done photographic work but the decision on this we will leave to your on-the-spot judgment. The letter of credit for three thousand dollars is to be used to finance this venture. There will also be a reserve of one thousand dollars in a Swiss account should expenses necessitate a greater outlay. This money will constitute a non-interest bearing, operational loan which must be repaid by WISOGUE/1 from profits over a period of years. All other profits after the loan is paid off will be WISOGUE/1's.

5. A word about the manner of men with whom we are dealing. He is a small, energetic individual, who has displayed shrewdness, cunning, ingenuity and inventiveness. He has a peculiar turn of mind which lends itself remarkably to nefarious and extra-legal activities. Excitement and intrigue are important factors in his life, he relishes it and as a result may be a little delicate to handle. WISOGUE/1 likes order and clear cut chains of command. He admires the Prussian approach and as a result will take orders even if he may disagree. It is important to him to have the trust and confidence of his case officer. If in his own mind he feels assured of this and is confident of the professional FUTURE-type competence of the CO, he will reciprocate in kind. He is indeed aware of the precepts of right and wrong, but if he is given an assignment which may be morally wrong in the eyes of the world, but necessary because his case officer ordered him to carry it out, then it is right and he will dutifully undertake appropriate action for its execution without pang of conscience. In a word, he can rationalize all actions. One last thought which may be useful. Best results will probably be gotten if, upon given an assignment, he be permitted to accomplish it in his own way. The latter is connected with his idea of trust and confidence.

1. Project: WIROGUE

2. Objectives:

- A. To provide a long term, deep cover asset in the Republic of Congo and adjacent areas.
- B. To establish a principal agent in the Republic of Congo, in order to build a covert net in support of operational activities.
- C. To provide an asset for utility support for KUBARK personnel under official cover.

3. Reason for termination:

Subject's poor performance and lack of operational security coupled with his possible arrest by the Congolese authorities necessitated the removal from the area of WIROGUE/1. Once this was accomplished there was little or no possibility to continue the project.

4. Effectiveness of project:

WIROGUE/1 did manage to establish himself in a position of potential value and therein implement the objectives of the project. However the local situation curtailed his effectiveness and his lack of appreciation of the need for operational security ended his usefulness.

5. Date of Termination:

7 September 1961.

6. Status of Commitments:

No commitments were made to WIROGUE/1 and quit claim was procured.

7. Plans for Disposition Funds, etc:

WIROGUE/1 was paid a final sum of \$2000.00 which constituted his termination bonus, was given his documentation and transported to Germany where contact was broken. He had been given a letter drop with SS/DCB for future contact. It was agreed that he would keep CIA apprised via the ~~SS~~ drop.

8. Risks: \*

The only outstanding risk which WIROGUE/1 may present to CIA would be the identification of current members of the Leopoldville Station to a hostile service. The possibility of this occurring is remote since there is still a hope on W/1 part to work for CIA in the future, however, it does exist. There

MEMORANDUM FOR: Chief of Operations, DD/P

SUBJECT : Project WIROGUE (Approval)

AF - Leopoldville

1. The attached project, originating in AF Division, is presented for approval for the period 1 November 1960 through 31 October 1961. The purpose of the project is to establish a long-term deep-cover asset in the Republic of Congo in the form of a foreign national contract agent who will open a small business in Leopoldville.

2. Authority is requested to obligate \$17,250 from the DD/P-AF Division budget: \$13,250 in fiscal year 1961 and \$4,000 in fiscal year 1962, subject to the availability of funds. The funds requested included \$9,000 salary and allowances; \$1,250 travel expenses; \$5,000 operational loan; and \$2,000 operational expenses.

3. The attached project outline sets forth the background and concept of the project and is accompanied by a fiscal annex. The agent, WIROGUE/1, is a stateless person who was recruited and trained for a REDSOX operation involving a black mission to the USSR under Project ASENTINEL. That project was postponed for a year and in June 1960 was abandoned. In the interim WIROGUE/1 has been working with TSD at a covert site in cataloging information from East German documents and developing or improving methods for picking locks. WIROGUE/1 was born in Georgia, USSR, in 1915. He spent the period from 1922 until World War II in Paris, France. He served in the French Foreign Legion, volunteered in 1942 for work in Germany and spent considerable time in German prisons and concentration camps as a result of being arrested for forgery. He has a prison record for burglary in France subsequent to World War II. He has had schooling and experience in mechanical engineering, as a camera technician and in commercial photography.

SECRET

SECRET

He also has invented various labor saving and photomechanical devices. He has had practical experience in the forgery and fabrication of documents. WIROGUE/1 was brought to the U.S. 'black' for training in connection with the ASENTINEL operation. It is contemplated that he will be flown 'black' to West Germany where he will be surfaced as an Austrian citizen with a legend of having worked in various concerns in West Germany subsequent to World War II. He will proceed to Leopoldville where, with a \$4,000 operational loan, he will open a small photo or repair shop which it is expected will give him a degree of freedom of movement and provide for covert contact. It is estimated that there is a need for technicians in the Republic of Congo at the present time. The project has been coordinated with the Chief of Station, Leopoldville.

4. Appropriate Special Staff components concur in recommending renewal. Both CI and FI Staff express certain reservations in view of the background and adventurous nature of the agent, and emphasize the necessity of exercising firm operational and personal control over him at all times.

5. I recommend approval of Project WIROGUE as presented, and endorse the observations of the Staffs noted in paragraph 4 above.

B. Operational Information:

1. Circumstances of Recruitment -

The agent was first contacted in October 1958 as a result of a lead from AEPADDLE. He was recruited in April 1959 by the Frankfurt Station, for a REDSOX operation. There had been some difficulty in the initial recruitment, since it could not be resolved as to whether or not he could work amicably with another agent in the proposed operation. After psychological assessments and LCFLUTTER examination, it was decided to recruit subject. He was assigned the crypto AEASPIC. In April 1959 subject was brought to the DCB, via a HBRAINBOW flight. Subject was trained in the ASENTINEL project for a black mission into the USSR as a

S E C R E T

SECRET

-4-

member of a REDSOX team. This project was postponed for a year. In the interim he was assigned to TSD, where he was employed at a covert site, involving the cataloguing of specific information from East German Documents, and developing and/or improving tools and methods for picking locks. On 17 June 1950, it was decided that Project ASENTINEL would not be carried out. On receipt of this information SR/DOB endeavored to place subject elsewhere, where his training would be beneficial. The African Division expressed interest and had agreed to utilize him as a result of assessments. During the period from the 21st of October until dispatch, subject will be carried on OCA funds.

2. Security Flaps -

A. During the latter part of WW II subject was arrested by the German police for forgery. He was not unduly held by the criminal investigation branch of the police but passed on to the Gestapo. Subject was brought to Berlin where he was interrogated for several months at Gestapo Headquarters. Later he was tried and sentenced to death. For some unknown reason he was moved from jail to jail, concentration camp to concentration camp. While in prison he resorted to a "ruse de guerre" and told the Germans his father had invented a motor that could run without gasoline. He offered to draw the designs of the motor and was able to stall long enough to be liberated by components of the advancing U.S. Army.

B. In 1946-47 subject and an accomplice committed two robberies of jewelry stores.

C. In 1949 subject robbed a bank of 1,000,000 Fr. fr. His accomplice was apprehended and shortly thereafter confessed, implicating subject. Subject was apprehended while attempting to cross the Franco-Spanish border. He was sentenced to ten years in prison of which he served only five, receiving parole for good behavior. Upon release in 1955, he was exiled on parole to Gap, France where he worked as an architect.

D. To our knowledge there is no indication that subject is known to be associated with KUBARK.

3. Agent's knowledge of sensitive matters - has met the following KUBARKERS:

Anthony H. FRIGANZA (P)  
Patrick B. NEWENS (P)  
Peter K. WINSHIP (P)  
Dexter E. ROSTEDT (P)  
Fred KIRKPATRICK (T)  
George F. MUNS (T)  
Michael RAE (T)  
Charles R. ROUSTADE (P) Mr. Dan  
Paul E. LEIGHTON (P) Dr. Johns

SECRET

S E C R E T

-5-

Subject does not know that he is working for KUBARK. He knows that he is connected with some intelligence organization, e.g., ODIEX. He does not know anything about KUBARK organization nor its modus operandi.

4. Security of meeting sites, communications, etc:

These will have to be worked out in the field by subject's case officer. In general it is proposed to have him be surfaced in Germany as an Austrian and from there, making his own way to Leopoldville. There he is to establish a small repair or photo shop. This would provide a natural reason for his CO or anyone to visit him under the guise of covert business. Longer meetings would be held clandestinely as determined by his CO. All communication channels will have to be worked out in the field. However until contact is established, a secure emergency channel with Headquarters is being established. This channel is to be used only in the event subject finds himself stranded or for dire emergency.

5. Security:

The agent is very security conscious and will follow any direction in the interest of security.

6. Control:

On this point here are several aspects for consideration. He is under contract to us and although he is not too interested in money, he does enjoy its benefits and realizes that it will continue so long as he does a good job. The more important built in control is the fact that he will be under false documents, and being stateless, he is completely dependent on KUBARK to perpetuate his quasi legal existence and to eventually legalize his status. Added to this is the control which stems from the prospect of resettlement in another country. This would give him status as a citizen. Realizing these points, subject is more than willing to play ball with us.

7. Prior contacts with any security service:

As stated in 3B (2) above, the only brush subject has had in the past was with Gestapo and French police. These were prior to his recruitment by KUBARK and were not as a result of I.S. activity.

8. Training of agent:

He had received training in covert black border operations. In addition, he is being trained in small arms and demolition.

9. Cover effectiveness and the operation of the cover facility:

Subject will open a small photo or repair shop, which will give him

S E C R E T

S E C R E T

-5-

a degree of latitude in movement and a cover for covert contact. Subject has undergone plastic surgery in order to change his appearance, also a toupe was made to further assist in the changing of his outward appearance. This action was designed to preclude any possibility of recognition by former French associates, particularly since he is to pass as an Austrian. The cover facility, as stated, will offer access to all classes of people; it will provide a natural means for contact, and will permit subject to make trips under the guise of business travel.

WIROGUE/1 will be required to set himself up in business. The dearth of qualified technicians will help facilitate his opening an establishment. WIROGUE/1 will need capital to set himself up, buy needed supplies and have working funds. For the purpose of providing him with funds to establish and open this cover business, we will advance him \$4000.00 as an operational loan, to be secured with a non-interest bearing promissory note. An additional \$1000.00 will be held in reserve, should he need more money. Ostensibly it will represent his own savings, and will be deposited in a Swiss bank. Provision will be made to pay this money back from his profits. After the loan is paid off, WIROGUE is to keep the profits he may make.

He will initially transfer \$1000.00 to a bank in Leopoldville. We are certain that he will not abscond with the funds, since his documentation will be false and his pay and allowances total \$8500 per annum, he would therefore stand to lose a great deal more than he would gain.

Being a contract agent, there is ample control if he shows signs of spending too much time in the pursuit of profits from his cover business.

His salary and allowances will be paid in part to a personal account in Switzerland (separate from his business account). This money will ostensibly also represent his savings. The remainder will be paid directly at the station.

C. Security Estimate:

WIROGUE had been recruited in France and exfiltrated black from West Germany to SR/DOB. He has had no known I.S. connections in the past. He will be surfaced in West Germany and will proceed to Leopoldville. He will be documented as an Austrian.

4. Background

The need for various technicians to stabilize the chaotic conditions in Leopoldville coupled with an urgent need for controlled assets in that city gave rise to this project. WIROGUE's particular talents, experience, ability and training open up a wide variety of possibilities.

S E C R E T

5. Evaluation

There will be a need for WITROGUE to establish and live his cover. This is anticipated to take several months. Hence he will become operational in early 1961. However, it is reasonable to expect that the station will undoubtedly place him in covert role much sooner. Nonetheless, we do not anticipate any FI take prior to mid 1961.

6. Coordination

Coordination at Headquarters is being effected with FI Staff, Finance Division and SSA/DDS.

- B. DIR 08783 (OUT 86555) RYBAT

8. Timetable:

His covert training will be completed by 15 November 1960. He will be briefed on his cover story, documents, contact instructions, etc., 15-18 November 1960. On/about 18-20 November he will be flown back to West Germany. There he will spend 5 to 7 days to familiarize himself with Germany, receive his final briefing and obtain a visa, then depart for Leopoldville arriving o/a 1 December in Leopoldville. Once there he will require 1-2 months to look over the business possibilities and establish himself.

9. Approval Period and Cost

- A. Approval is requested for one year starting 1 November 1960.
- B. Following is breakdown of the costs:

1. Salary at \$500.00 per month	\$6000.00
2. Per diem during travel	250.00
3. Travel to Leopoldville	1000.00
4. Operational loan	5000.00
5. Operational expenses	2000.00
6. Allowances (flat sum)	3000.00

Total                      \$17250.00

10. Emergency Situation

In all present and anticipated conditions with the exception of a hot war, the agent will have clandestine means of communication with his CO in the ODACID installation and with Headquarters. For contingencies an emergency SW system has been given to agent for direct communication with Headquarters.

FISCAL ANNEX

Project WIROGUE-LOAN

Purpose: The objective of this project is to provide a long term, deep cover asset, a contract agent, WIROGUE/1, in the Republic of Congo and adjacent areas in order to build a covert net in support of operational activities and to provide an asset for utility support for KUBARK personnel under official cover. For cover purposes, WIROGUE/1 will establish his own business, a small photo or repair shop, which will give him a degree of latitude in movement and a cover for covert contact.

To assist WIROGUE/1 in establishing his business KUBARK will loan him up to \$5,000 on his personal notes, non-interest bearing and due on demand. The initial loan will be in the amount of \$4,000. An additional \$1,000 loan will be made when, in the opinion of the Chief, Africa Division, it is required and necessary for the business to continue and operate.

Funding: Up to \$5,000 in U.S. currency or the equivalent in foreign currencies may be advanced to WIROGUE/1 as loans. The loaned funds will be passed to WIROGUE/1 in a manner agreeable to Chief, Africa Division and Chief, Finance Division. All funds loaned to WIROGUE/1 will be secured by U.S. dollar, non-interest bearing notes payable to bearer on demand. Such notes will be prepared by or approved by the Office of General Counsel. It is anticipated that an initial \$4,000 will be deposited in a Swiss bank, ostensibly representing his own savings, by KUBARK, Monetary Branch.

Accounting and Write-off: WIROGUE/1 will be required to sign receipts for all funds loaned to him. Finance Division is authorized to accept these receipts as a charge to expense and to set up the loans payable in a memorandum account without a due date. The notes signed by WIROGUE/1 shall be transmitted to Finance Division for safekeeping. Repayment of the loan shall be made from business profits. WIROGUE/1 will be required to submit quarterly income and expense statements on his cover business and also copies of all tax returns filed in connection with his cover business. A copy of all income and expense statements and tax returns will be forwarded to Finance Division. It shall be the responsibility of the Chief, Africa Division to determine when profits warrant payments on the loans and to effect such repayments.

For purposes of control and collection, WIROGUE/1 will be required to sign blank checks on his Swiss and African business bank accounts.

NO INDEXING REQUIRED

ACTION REQUIRED: As requested in para. 1

REFERENCE: HBPW-2021

1. In accordance with instructions contained in reference, the Base has been servicing the accommodation address at least once a week through the services of ALLOMETER-2 who rented this post office box under an alias. On 7 October 1960 the Base forwarded a letter which ALLOMETER-2 had picked up the day before. This letter was registered, and ALLOMETER-2 was obliged (for the second time) to make a personal appearance before the responsible persons and to sign (in alias) an acknowledgment of receipt. If it is at all possible to send these letters unregistered the Base would much prefer that this system be adopted. ALLOMETER-2, over a period of years, has rented many different post office boxes under different names, and the Base considers it a definite security hazard if he is forced to identify himself in the manner required by the registration of these letters.
2. Headquarters attention is called to the fact that the letter which the Base forwarded on 7 October 1960 was postmarked in Europe on 12 August 1960. Even in the light of the notoriously slow [ ] postal system, the Base cannot explain such a long delay in transit for air mail. Such a delay has been typical of almost every letter the Base has received in the past six months. The Base has no reason to disbelieve ALLOMETER-2 in his repeated assertions that he services the box at least once a week.

As a result of conversations between representatives of this Division and SR/DOB, transfer of ARASPIC to Africa West's jurisdiction is agreed on following his present period of training.

Africa Division will assume full responsibility for his handling. To that end, we are obtaining quarters, have had discussions with Alien Affairs Staff, and have taken steps to regularize ARASPIC clearance status for his intended assignment.

As the exact date of transfer is not yet determined, it is requested that [redacted] maintain contact with [redacted] on extension 3829 to handle final transfer arrangements.

SR's cooperation on such matters as shots, training, quartering and a new physical examination are appreciated.

4. superior intelligence and reasoning power

MEMORANDUM FOR THE RECORD

SUBJECT: Contact Report

1. On 8 September 1960 the undersigned accompanied by SR/TB case officers [redacted] met with David Tzitzickvili (201-233477) in a SA/DCB safe house. The purpose of this meeting was to assess David for possible use by JMWOC. The subject was aware he was being interviewed as the same procedure had been used previously by a representative of the African Division.
2. The subject has led an exciting and diverse life. The SR Division brought him to the United States (black) to train for a mission which has subsequently been cancelled. At the present time the SR Division is making arrangements for the resettlement of the subject in Latin America, probably in Mexico. However, due to the training this agency has given the subject SR feels he should be utilized by the CD/P if possible.
3. Observing David for some two hours and listening to his story the undersigned feels there may be some use of him by JMWOC. David is a smooth talker who has obviously told his story many times to the satisfaction of his listeners. He elaborates on the exciting and bizarre parts of his life and tends to gloss over those sections he feels that are common to everyone.
4. The subject has been in the United States for some time. This time has been spent in training for a specific mission which never came to pass. Recently he has been engaged in "make work" programs to pass the time. This could well explain his apparent impatience and desire to do something. In his own words he wishes to prove that he is capable of accomplishing a task assigned to him. He asks for a chance to surveil someone, to take clandestine pictures, even to assassinate someone. He very nearly begged to be given a pitch during this meeting.
5. The subject is a stateless person. He is in the United States black and could be completely unattributable if necessary. He desires citizenship and a chance to settle down in one spot. He prefers U.S. citizenship but is not adamant on this. However the basic motivation appears to be love of excitement. The subject gives a very good appearance of the classical adventurer. He relates his past exploits in wartime Europe as motivated by the thrill of duping the existing authority.

MEMORANDUM FOR THE RECORD

SUBJECT: Mexican Resettlement Arrangements for AESENTINEL  
agent AEASPIC

1. At 1400 hours, 19 August, SR/DOB case officer, [redacted] from Defection Coordinators Office of CIA met with [redacted] of TSD/IB re-documentations arrangements and travel routing for possible resettlement of AESENTINEL agent AEASPIC. The following arrangements were proposed by [redacted] for SR/DOB's consideration. TSD/IB suggested that Subject be sent by black flight from here to West Germany, and there surfaced with an altered Greek passport which TSD/IB now has available. A suitable cover story would of course be incorporated re the possession of a Greek passport by Subject, while Subject has no Greek language capability. Since this passport is a valid one, (and was, in fact, purchased by TSD/IB) and is therefore backstopped in name, Subject could apply at the Mexican Embassy in West Germany for a Mexican tourist visa by presenting this passport. Once in Mexico, Subject could request emigration action upon declaration of intent to become a Mexican citizen and upon submitting proof of sponsorship by an employer in Mexico City.

2. Upon your concurrence, [redacted] will arrange for [redacted] to meet with [redacted], the CIA contact used for introducing agency designees into Mexican private industry. [redacted] has already talked with [redacted] on two occasions and has passed him Subject's file. From their talks, [redacted] has assured me that this arrangement is entirely feasible, Gillete Company of Mexico City being cited as one possibility.

3. AEASPIC would then openly proceed to purchase plane tickets in West Germany for Mexico City and upon arrival there, would be waiting for him. The time table for this entire operation was estimated at about five weeks. Of course we did not discuss Subject's monetary maintenance for the interim period of travel, nor until Subject could begin earning his own living.

MEMO FOR THE RECORD

SUBJECT: Biographic Information/Case Officer Evaluation of  
David TZITZICHVILI, alias David DURVARD

~~Case Officer~~ Biographic Information

David TZITZICHVILI was born 20 December 1919 in Tbilisi, Georgia, where he lived with his parents until 1921. Subject at that time moved to France with his parents. Subject grew up in France and therefore speaks native French (Parisian). Subject does not have French citizenship, however, and must be classed as stateless. Subject earned the first part of his baccalaureat at Breguet (electro-engineering), then entered the Foreign Legion at the beginning of WWII. Subject fought in N. Africa until French capitulation in 1940, at which time he was discharged to return home to Paris. In 1943 he went to Germany as a voluntary worker. He worked there primarily as an industrial electrician. While in Germany he assisted French officer P.O.W.'s to escape, aiding them with cleverly falsified papers, stamps, cachets and even uniforms. It is interesting to note that while subject attended school at Breguet, he also attended the Technicum for Cinematography. It was from these past studies at the Technicum that subject was able to develop techniques to apply to photo-mechanical forging of documents, stamps, and cachets. Subject was betrayed to Germans, arrested, and sentenced to death for espionage. Subject was able to drag this case out by implying the existence of a large British run net of which he was a part. In 1945 he was liberated by the U.S. Army and returned to Paris. Subject lived there in relative quiet until he, together with a war-time friend, robbed a Paris bank of a sizeable amount of money. Subject and accomplice were apprehended by the Surete on 11 July 1950, sentenced to prison, but released some five years later for good behavior and on the basis of their

war record.

It was while there that subject was contacted by this agency and subsequently brought to this country for use as one of two agents for Project AESSMITH-L.

Subject is presently residing in his Wash. D.C. apartment and is readily available for any interviews.

Subject is engaged in his safe office in several technical projects which could be of value to this Agency. Two of his ideas have been passed forward to TSD for development/exploitation. TSD has expressed interest in another of his ideas, the plans for which have just been completed.

REF : SR/DOB 60-1990, 29 June 1960

1. This will confirm recent discussions held between [redacted] of your Office and [redacted] of my Staff relative to the proposed W/T training of AEASPIC. As was explained by [redacted], W/T training of an agent on a full or part-time basis, is contingent upon the approval of a specific project with supporting communications annex. While we have on occasion participated in "holding" training of agents without benefit of a definite requirement, current operational commitments now make this impossible.

2. Should a definite requirement for the operational utilization of AEASPIC develop we will arrange for the W/T aptitude assessment and training. Prior to our initiating such action, it is requested that a representative of your Office discuss operational details with an appropriate Foreign Division within the Office of Communications. This will enable us to tailor subsequent training in terms of specific equipment and procedures as required by the project. In this respect, further information can be obtained by contacting [redacted] on extension 8137.

SUBJECT: Possible resettlement of SR/DOB Redsox Agent.

REFERENCE: SR/DOB/60-2011, 25 July 1960

1. As a result of referenced memorandum and in line with conversations held between the undersigned and various members of SR/DOB, the undersigned met with [redacted] in the Company's offices in Boston on 15 September 1960. It was explained to [redacted] that the Agency had a resettlement problem and that they wished to invite the cooperation of the Company in the resettlement in Mexico City of an asset for whom we wished to find employment.

2. [redacted], after posing several questions, agreed in principle that the company would be willing to supply such agent with employment in their Mexico City factory. However, he wished to discuss it with the General Counsel and also to look into the laws of Mexico dealing with the period of employment and what provisions there were for disassociating themselves with such man should he prove completely unsatisfactory. It was then explained to [redacted] that the Agency would like to be able to supply the agent with a reasonable facimile of a [redacted] together with a message which would offer him employment upon his arrival in Mexico City. Again [redacted] approved of it in principle, but requested that a copy of the letter be shown him prior to its dispatch.

3. Upon return to headquarters, the undersigned talked with Mr. [redacted] of SR/DOB and explained to him what was needed to satisfy the requests of [redacted]. [redacted] explained that within the last 48 hours a different division had evidenced interest in the agent and were picking him up for their use so that there would be no further need of the offer of employment from [redacted].

4. The undersigned will see [redacted] on 21 September 1960 to explain the situation and thank him for his offer of cooperation.

1. At 1330 hours, 26 August SR/DOB case officer [redacted] met with [redacted] of TSD/IB and [redacted] of Office of Security Contacts. At this time a name for AEASPIC was agreed on and then passed on to [redacted] so that he in turn could ascertain the job possibilities for AEASPIC's possible Mexican Resettlement. MEMORANDUM FOR THE RECORD

SUBJECT: Personnel for Contingency Force

1. There is presently in the Washington area an individual who appears to be suitable for the JMARC Contingency Force. The undersigned was, at one time, Case Officer of subject and believes that he is readily adaptable to the program. Subject is a Contract Agent of SR/DOB who was trained for a specific black mission into Russia during 1959. His nationality is Russian, however, he is now stateless and prior to being recruited had been living in France. Subject's background appears to qualify him as he has served in the Red Army, the French Foreign Legion and in addition has received various training including para-military, while under Agency sponsorship. Subject is unwitting and has good non-U. S. attributability.

2. SR would like to see Subject utilized in some capacity as he represents a large investment in time, training and money. SR now has nothing for subject as his intended mission was scrapped prior to dispatch because of the then forthcoming visit of KRUCHEV to the U. S. Also, subject's resident permit will expire in October at which time, unless he is continued on contract status, he will be re-settled in South America.

3. Attached you will find B1 and Case Officer evaluation of subject.

MEMORANDUM FOR THE RECORD

SUBJECT: Biographic Information/Case Officer Evaluation of  
David TZITZICHVILI, alias David DURVARD

Biographic Information

David TZITZICHVILI was born 19 July 1918 in Tbilisi, Georgia, where he lived with his parents until 1921. Subject at that time moved to France with his parents. Subject grew up in France and therefore speaks native French (Parisian). Subject does not have French citizenship, however, and must be classed as stateless. Subject earned the first part of his baccalureat at Breguet (electro-engineering), then entered the Foreign Legion at the beginning of World War II. Subject fought in N. Africa until French capitulation in 1940, at which time he was discharged to return home to Paris. In 1943 he went to Germany as a voluntary worker. He worked there primarily as an industrial electrician. While in Germany he assisted French officer P.O.W.'s to escape, aiding them with cleverly falsified papers, stamps, cachets and even uniforms. It is interesting to note that while Subject attended school at Breuguet, he also attended the Technicum for Cinematography. It was from these past studies at the Technicum that Subject was able to develop techniques to apply to photo-mechanical forging of documents, stamps, and cachets. Subject was betrayed to Germans, arrested, and sentenced to death for espionage. Subject was able to drag his case out by

implying the existence of a large British run net of which he was a part. In 1945 he was liberated by the U. S. Army and returned to Paris. Subject lived there in relative quiet until he, together with a wartime friend, robbed a Paris bank of a sizeable amount of money. Subject and accomplice were apprehended by the Surete on 11 July 1950, sentenced to prison, but released some five years later for good behavior and on the basis of their war record. It is interesting to note that while in prison, Subject invented a machine for making cardboard boxes. This machine was actually built for one of the prison administrations and put into operation at the prison factory. Upon discharge from prison in December of 1955, Subject lived, worked and was paroled to his brother in Gap, France. It was while there that Subject was contacted by this agency and subsequently brought to this country for use as one of two agents for Project ASENTINEL.

Subject is presently residing in his Washington, D.C. apartment and is readily available for any interviews.

Subject is engaged in his safe office in several technical gimmicks which could be of value to this Agency. Two of his ideas have been passed forward to TSD for development/exploitation. TSD has expressed interest in another of his ideas, the plans for which have just been completed.

Alien Affairs Staff of Immigration/Naturalization has extended Subject's backstopped residence status until 20 October 1960.

MEMORANDUM FOR: Chief, OS/Allen Affairs Staff

ATTENTION:

SUBJECT: Change of Living Quarters, Case of AEASPIC,  
CI/OA No. C-73532

1. Background:

Subject was brought to the United States via HBRAINBOW flight on 20 April 1959 for training preparatory to dispatch on a black mission into the USSR as a member of a REDSOX team. CI/OA Division approved (No. C-73532) on 11 March 1959. This mission has been postponed as of 17 June 1969.

2. In view of the effort and expense devoted to the recruitment and training of AEASPIC, SR Division has deemed it worthwhile to give Subject certain limited additional training prior to operational utilization by another component of the DD/P. To facilitate this end it is requested that subject, towards the end of July, 1969, be permitted to be moved to an SR/DOB safehouse on the outskirts of Washington, D. C. Subject will remain there until final disposition of his case. Although Subject has conducted himself in an exemplary manner re his personal habits and sense of security, final disposition of Subject can be better accomplished in a more controlled installation.

3. It is anticipated that final resolution of the case of AEASPIC; i.e. operational utilization by another component of the DD/P or resettlement, will be accomplished by 20 October 1969, the date approved by OS/Allen Affairs Staff whereby AEASPIC can legally remain backstopped in the United States.

4. It is further requested that AEASPIC be permitted to continue to spend occasional week-end free time unescorted within the limits of the greater Washington, D. C. area.

5. Subject will continue to be advised and guided by an SR/DOB Case Officer re Subject's personal life and habits.

1. On 17 June 1960, SR/DOB was informed telephonically by [redacted] COP/SR (Acting Chief SR/Div.) that Project ASENTINEL would not be carried out this year (1960).

2. The feasibility/practicability of carrying out this project at a later date would of course depend on the line of United States policy vis-a-vis countering the Soviet threat.

3. After due consideration, SR/DOB has taken steps to terminate one of the two ASENTINEL agents, ASENTINEL/3. As regards the other agent, ASENTIC, it is felt that he could be of definite service to this Agency in some similar capacity. This office is presently engaged in finding a job for ASENTIC.

30 Rue Cabanis  
Paris XIV.

Hurrah! At last, at last everything happens... even a letter from Fat! How we have waited for this one because it's the only one we have received. We heard here and there... Ajibo has a letter. Fat is in South America ... Fat wrote Atchiko... and then, nothing for us! We thought this was dirty, you know Fat. In spite of everything, we did not think for one moment that you could have forgotten us! How is that for confidence! Well, you're alive but so far away... This morning we all enjoyed your short letter...but it should be a very long one to make us pardon you for one year's silence. Do you understand? One whole year without knowing anything; imagining the worst and with each — our thoughts came to naught in search of Fat, the lifelong friend! You certainly have some nerve to speak of Mimi who grumbles. All that has changed now. I no longer grumble; I keep still. It's Colette who ripes and criticizes endlessly, and makes you three times more irritable. It goes without saying that she has excuses — but so have we. For years she has not had any vacation and is crushed by worries, is unemployed, and doesn't have a cent. Not only is it not funny, it's also disgusting. We hoped until the last minute for your presence at Nina's wedding, which was strictly Russian... the facade at least, but also the reverse side! 230 people, an excellent buffet, champagne, (cruchon?) etc.... Georgian dances and an atmosphere so wonderful that the solemn 2nd lieut. Monestier lost his feet and danced (dragged on by Stanko) the Georgian Dance! There are pictures to prove it which are in the hands of Nina and Bernard. These two are living the perfect love, with a capital A. Bernard is charming in every way. The Monestiers have given generously but we should do the same. Victor who had promised 90,000 gave 50,000. Aunick must have loaned her father 80,000 on Esti's pay and Bernard loaned 50,000 to your father-in-law. With Nina gone we have lived on Aunick's salary with debts more debts. (vaste?) having stated that didn't have a cent until Esti, angry after 19 months without leave sent, for his wife. Aunick departed for Algeria by plane asking her father to pay back the money loaned without leaving us anything to live on. Vic didn't have any money, but the day after Aunick left, he went on vacation to the Palearic Islands with Laridge and a certain Barbara! Nelly, no possibility of vacation or anything. We don't even speak about it. I had to borrow from everywhere to live until Aunick returned. 1 1/2 months afterwards without lodging and not able to find (illegible). They came to live here in one room, and they both working, but Esti has to take time off very often for examination, plans, etc... therefore Aunick gives us 20,000 per month. Colette made a few dresses. Nelly took her beauticians course and soon got her diploma. She looked for a job which she could not find. She was too young (she's 18 years old.) This is just to show you our joy of living and the change in character of Colette who (illegible) for nothing and makes life expensive for us. On top of everything I had an operation last year. Since January, Victor has spent two weeks in the hospital and he's going for five months to the mountains. Leaving us to pay the rent, the gas, the electricity, the water, and if that isn't enough, the taxes. (which he forgot). This is our debt-ridden life. Whole days without heat, without light even without bread; and when will this end? If Colette only found work, and Nelly too, but nothing — nothing. I'm looking for those religious houses where we can ask for assistance, but great catastrophes like Frejus and Agadir take up all the possibilities. This gives you an idea of my weakness, and I'm 80 years old. I can no longer work as I used to and, as for my friends, except for (illegible) who payed for Nelly's studies Eribri who is faithful but no longer has much money... that's all. The worst thing is the lack of heat. This gives you a few details on the joyous life that all give of us are leading here. As for Nina, she's out of all this.

Loi-233477

She has an easy life and rather fashionable life. Her husband is at her feet, it is wonderful for her. Aunick also has a wonderful husband, but with us there is financial trouble. (Illegible) on life Cabinis style! Hopv (illegible) like his father... he bites people whom he doesn't like. He's the darling of Colette. Then there is the Cat Poussy who chases the mice which infest the kitchen. Now that you're up-to-date, describe your life to us quickly. How long have you been there, and why has it taken so long to write? Can you come easily? But November or December is quite distant. Don't you think that I'll leave for the other world without seeing you. They're talking about the engagement of Nelly with Ramez for October. This time there is no reason why you should miss it. You know now that we've found you again it's out of the question for us to leave you in peace.

You know if you can help us out don't holdback for these past two months have been the most terrible in our life. If in June you can give Colette the possibility of at least a two-week vacation. You will be doing a pious deed. It will do her good morally and physically. If you come back that will buck her up. She needs it badly.

She was 45 years old yesterday. Her sons-in-law Maguy and Loulou, both same, the faithful ones. With this I have bothered you enough, for this time but I wanted to put you in the swim again after a year.

I kiss you have all the months without any news. Don't start that over again.

The whole family is going to write you. Even lazy Colette but what wouldn't we do for you.

MIMI

Dear Dat (Eduardo)

Am I am asking me if Brasil is really existing, if the planes have find him...if the mail is invented there... are they in the moon? We have send 7 letters. No answer. You may cry that are not wraiting to you...It is the last one. Colette had written twice, Annick twice, I have four time, Nelly twice, Nina once, with different name. That is extraordinary...because I hope you are still alive. It is no necessary to talk about our life...That is all.. I open again my letter to telling you your oncle Keresselidz is dead. Atchiko was here and said he had written also and had never received an answer.

Mme Kwinitadze is dead and also Mr Galoblichvili, one of this day that will be my turn...will I see you again before?  
If that letter didnt arrive, I give up.

We are kissing you all of us.

Grandma.

Very dear Edwards,

We were beginning to wonder if you were still on this planet or if you had ~~emigrated~~ <sup>emigrated</sup> to the moon!

Since the note that you sent us a few days after your departure, we haven't had any news from you. I never received your first letter and I was even very angry for <sup>Loulou</sup> Lulu had told me that Ach had received news of you and that you were in South America. As for Mathela I really don't know if she received your letter but I am going to write her a note. As for the others I don't know their address. Be so kind as to give it to me so that I can carry out your orders!!! Time passes with incredible swiftness and unfortunately life is so monotonous! Apart from Nina's marriage, which was a great success and during which we had a very good time, there's nothing very interesting. Nina and Bernard found an apartment very near the house at Bd. Auguste Blanqui almost at the corner of the rue de la Santé, the building which is behind the little gas station at the end of a long alley-way. Catch on! As for Fiti and Aunick they are still at home but would like to find a place of their own.

You're exaggerating when you say Hopy the "pisser" which is completely wrong. You should instead say Hory the "biter" for he bites <sup>easily</sup> quickly unfortunately! Yesterday evening the whole family was gathered including <sup>Loulou</sup> Lulu and Maguy to <sup>(word missing)</sup> celebrate three days alas! 45 summers! The atmosphere was very friendly, and just this morning, a letter from you bright and early. It's an extraordinary piece of luck that it's still in one piece as it was pouring out when I shouted a letter from you. You can be sure of getting news from the whole family and I thank you for loving us so sincerely! My august former husband has just

201-233477

caught double pneumonia again, he'll be laid up at least until September which has plunged us all into (free translation) our ears in debt -- a matter of money naturally! Therefore, I'd like to tell you that your letter makes me very happy. You should certainly be framed with the most beautiful frame that exists in this whole wide world for there is <sup>no</sup> surely no two like you has far as we are concerned naturally. May heaven take it <sup>in</sup> to consideration toward the remission of all your sins, amen! Ouff!!!

I stopped this letter yesterday evening when Odile came to visit me to wish me a happy anniversary with a bouquet of flowers. She stayed for dinner as well as Haguy and all three of us went to the movies to see an old film which was very funny "You Can't Take it With You" in which James Stewart was still young.

What else is there to tell you, you know our life...nothing has changed. So, I impatiently await another letter from you telling us what you are doing with many details. It would be really nice if you could be here for the end of the year. In the meantime I kiss you affectionately.

Tres cher Eduardo

Nous commençons à vous demander si tu  
étais toujours sur cette planète ou bien si tu  
avais emigré dans la lune.  
Depuis le petit mot que tu m'as envoyé  
quelques jours après ton départ nous n'avons  
aucune nouvelles de toi. Tu n'as jamais  
reçu ta dernière lettre et j'étais même assez  
surpris caroulon m'avait dit que 'Ach  
avait reçu de tes nouvelles et que tu  
étais en Amérique du Sud, quant à  
Mathéla j'ignore totalement si elle a  
reçu ta lettre moi je vais lui écrire  
un petit mot. Pour les autres j'ignore  
leur adresse et serais gentil de me les donner.  
J'aimerais que tu puisses exécuter tes ordres !!  
Depuis le temps que tu es parti le temps  
passé à une vitesse incroyable et  
pourtant la vie est d'un monotone!

201-233477

A part le mariage de Nita qui a été très  
russi et on nous nous sommes beaucoup  
amusés rien de bien intéressant.

Mme et Bernard ont trouvés un appartement  
tout près de la maison Bar. Anquet  
blanche presque au coin de la rue de  
la Santé. L'immeuble qui est derrière le  
côté porte d'essence au fond d'une grande  
cour. Tu loges! Quant à Tati et  
Annick ils sont toujours à la maison  
mais voudraient bien trouver un gîte  
à eux.

La cérémonie de Mme Hopy le "piscieu"  
ce qui est tout à fait tout à  
deux. Hélas! Mme Hopy le "mordant"  
car il mourut finalement malheureusement.

Justement hier soir toute la famille  
était au grand complet plus Loulou  
et Marguy pour sept ou trois jours  
hélas! mes 45 printemps! L'ambiance  
était très chaleureuse et juste ce  
matin à la première heure une  
lettre de toi c'est une chance  
extraordinaire. Qu'elle soit encore

i  
entièrement car je t'ai écrit une arabesque quand  
je t'ai écrit ~~pour~~ <sup>par</sup> lettre de te  
tu fais être certain d'avoir des nouvelles  
de toute la famille et je te remercie  
de nous avoir si sincèrement

M. Auguste et moi, a reçu une  
double pneumonie et en a eu besoin  
sur l'arrivé en Septembre ce qui nous  
a plongé tous deux le nez  
jusqu'en question, mais  
bien entendu! aussi, j'en ai tant  
te dire que ta lettre me plonge  
dans la délice - tu es certainement  
à encadrer <sup>ta</sup> <sup>bon</sup> que le plus beau cadre  
qui puisse exister dans ce vaste  
monde car il n'y a sûrement pas  
deux têtes comme toi - à notre égard  
bien entendu - que le ciel + en  
Tienne compte pour la remise de  
Tous tes papiers - aussi - est-il ouf!!

J'ai écrit cette lettre hier soir au moment  
de la visite d'Odile qui venait me  
souhaiter mon anniversaire avec un

bonnet de fleurs, elle est restée debout  
comme que Marguerite et nous avons été  
Toutes les trois bien sagement au  
cinéma voir un beau film très intéressant  
"Vous ne l'avez pas avec vous"  
on l'on voit un James Stewart tout  
seul.

Il me te dit d'entre tu connais notre  
vie... rien n'a changé... nous attendons  
avec impatience une autre lettre de  
Tosha nous racontant ce que tu fais  
avec force détails.

Elle serait tellement chouette si tu  
pourrais être la pour la fin de  
l'année en attendant je t'embrasse  
bien affectueusement

Hi Kid,

I hope that unlike myself you received my letter. Since the mailing of the last letter a sensational event occurred in the family. A fourth daughter for Atch, Sophie, born on March 13th. As you asked me, I sent them your address and my congratulations.

Yesterday Loulou came by for a few minutes in the afternoon to give us some very bad news. His father's condition is very bad. We are afraid it is a tumor of the lung. Unfortunately, when one says tumor, one often means cancer. I hope to God that I am mistaken. Little (eligible) the cousin of Ramaz had a fine boy named Christophe; and that's the latest news!

The children should write you every day, but if you want to chew them out, here is Nina's address: Mme. Monestier, 159 Bd. Auguste Blanqui, Paris 13.

Nelly has been working since last Monday in a very stylish and terribly expensive little shop. The job of sales clerk seems to agree with her. It is a store for expensive lingerie at the corner of rue Miromesnil and St. Honore.

I am writing you all curled up in the corner of the kitchen for we are out of heat and today, after a few days of radiant sunshine it is raining in torrents!

What crimes must I have committed in a previous life to lead such an ugly life!

Write us quickly and tell us what you are doing. We know nothing, since your last letter never arrived! I am waiting impatiently for some news from you. In the meantime, I kiss you affectionately.

cher Victor

J'espère que contrairement à mes craintes tu as bien reçu ma lettre. Je pensais le départ de cette dernière est arrivé un événement sans dans ta famille une belle fille à Abel Sophie née le 12 Mars. Comme tu me l'as demandé je leur en envoie ton adresse... et mes félicitations.

Hier Loulou a passé quelques instants dans l'après midi pour nous annoncer une bien triste nouvelle. son père son très mal. il doit avoir les résultats des radios aujourd'hui on a peur d'une tumeur au poumon et malheureusement que dit tumeur dit bien souvent cancer! faire le ciel que je ne me trompe pas.  
La petite Stavana, comme de Ramaz a eu un beau garçon dénommé "Christophe".

jours mais si tu veux les eng... avec

Le Térés racourci. Plein dans un  
coin de la cuisine car nous sommes  
sans feu et aujourd'hui, après  
quelques jours d'un soleil radieux, il

Quels crimes ai-je bien pu commettre

Paris, March 25, 1960

Dear "Eduardo,"

Everybody was very happy to hear from you again. You know that Mimi and Mama have already written you as well as, undoubtedly, Nina and Nelly. Therefore, I'm the very last to write you but that doesn't mean that I don't think of you.

It's almost a year since you left. Time passes rather quickly in spite of everything. Everybody must have already told you the most important news. So much the worse if I talk nonsense.

Last August 15 I went to meet Titi in Algeria. We returned together early in October. A whole year passed without our seeing each other, but with letters every day, and we found each other as if we had parted the day before, or almost. It was funny to see Titi exercising his functions as a second lieutenant with a section under his orders. What a pleasure to find myself with him there. Now when Bebert and company speak of military service I can join them. The life of an officer's wife is not so bad. One is spoiled! The first month we were at the sea shore. Since I love the heat this was just the thing for me! Titi left every morning at 5 o'clock to join his section 25 km from the place where I was staying and returned only at 4 o'clock in the afternoon; -- the weeks passed quickly except for the beach -- and still we could not go very far because of the guerrillas! In short, apart from going out to lunch, I stayed, so to speak, shuttered up in my room waiting for the return of my lord and master. I tried to go swimming alone, but the city and the beach were full of soldiers and I gave up quickly. You cannot imagine, I think, what it's like to eat alone as a woman in a restaurant dining room full of soldiers. I did not dare to raise my eyes from my plate and, to feel looked at while eating, makes you become clumsy. Hardly

21-233477

any women except some middle-aged ones who gave me side ways glances. There was plenty of youth but then too they looked at me like a China doll. That's enough for my "military service".

Titi went back to the school of fine arts, he's coming along fine. Unless someone offers him a wonderful position he will continue at the school. It will be very long! He also works for an architectural firm. Finally you know the procedure having almost been in it yourself, we are looking for an apartment. We would like to have a home of our own. Certain people don't understand why we want to leave la rue Cabanis since there's enough room there. First of all there isn't that much! We have to queue up for the bath room; if Titi wants to walk around in his shorts he can't do it (it's not that he is accustomed to doing this sort of thing) and the people can hear everything that's going on in the room. And then again it's very understandable that we want to have a place of our own which we will furnish as we like and where we will live as we like. To spend a full day in bed or to eat at one o'clock in the morning, etc.--and then, too, there is also a little friction between Mama and me. I'd like to shake her up. If you can do it by letter don't hesitate. She's getting bitter how can she do otherwise. She does nothing or next to nothing and she's letting herself go. She could be so cute if she did what's necessary to get thin, and despite her 45 summers she's still well-built. What she needs is a man to take care of her, to take her out and pull her out of her comatose or almost comatose state. I shake her up often but as for me I am abrupt and sometimes I say what should not be said. I'd like to find her a part-time job, something pleasant which would cause her to get out, take a walk, see people, etc. Evidently the house is less gay than previously and, nevertheless, we are still here. What will it be like when only Nelly will remain who is hardly ever here because she goes out with Ramas. And then there's another thing, people criticise Mama because they see her with nothing to do -- I allow myself to criticise, but I refuse to hear

others do it.

The <sup>e</sup> Robert ~~Monastiers~~ <sup>Monastiers</sup> are almost next door to us, exactly in the building across the street from the metro Glaciere. They found an apartment; but, hold on to yourself 1,600,000 francs deposit. It's crazy. It's their ~~great friends~~ <sup>grandfather</sup> who loaned them the money which they are paying back at the rate of 10,000 francs per month. They have received many gifts and are completely furnished. We see them frequently. Nelly went to a beautiful school which lasted three months. She liked it very much, but after <sup>getting</sup> going out, she didn't find a job. Through one of my friends I found her a job as a beginning sales clerk while waiting, but perhaps at the end she'll like being a sales clerk better. She's been working since Monday. Nina is still in the same job. She's waiting impatiently for Bernard to make enough money so she won't have to work.

Mimi is still the same fortunately. As for me, I've changed professions. I am a model. Don't laugh. Evidently I am beginning in this career, but I hope it will work out. One can earn a lot of money and it's a tiring business but pleasant and feminine and a lot more interesting than <sup>a</sup> the job as secretary where you rest your behind on a chair all day. I began at the beginning of November and I worked until the month of March. I've been unemployed since then, but I'm doing a lot of looking around to find something. The mannequin "cabines" are formed only toward the end of May. I must make some photo tryouts next week. Photography brings in much more. If only it works out I'd like it very much.

What more can I write you! We see Louis and N<sup>e</sup>thela quite often. N<sup>e</sup>thela has changed jobs and is now earning 150,000 francs a month. Not bad! Hurry up and write us and tell us about the things you're seeing. Do you like Brazil?

My dear Eduardo I am going to leave you. Write quickly if you can. I give you a big kiss and hope to do it for good one of these days.

Mon vicaire "Eduardo"

Tout le monde a été bien content de savoir de ta nouvelle. Tu sais que Maman et Maman ont déjà écrit sans sans doute que Maman et Nelly. Je suis donc comme d'habitude à t'écouter mais cela ne veut pas dire que je ne pense pas à toi.

Puisque un an déjà que tu es parti le temps passe malgré tout assez vite. Tout le monde a dû déjà te raconter le principal tangerin en fait. Le 15 Août dernier nous sommes partis rejoindre Titi en Algérie nous sommes restés ensemble les premiers jours à octobre. Un an entier sans nous voir mais avec des lettres chaque jour, et nous nous sommes retrouvés comme si nous nous étions quittés par un miracle presque. Cela fait diable de voir Titi dans l'exercice de ses fonctions de lieutenant avec une section sans

lui là bas maintenant, lorsque en  
même temps Bobert et les parlent service  
militaire. J'ai pu me familiariser avec  
la vie de femme d'officier. C'est la  
disagréable. On est chouchouté. Le premier  
mois nous étions au bord de la mer. Moi  
qui aime la chaleur j'étais servie. T. t.  
partait tous les matins à 5h rejoindre  
sa section à 25 km de l'endroit où  
j'étais et me rentrait qu'à 14h de  
l'après-midi. Les semaines sont vite  
éprouvées à part la plage et encore on  
ne pouvait guère s'y baigner, beaucoup de fellaqha.  
En résumé à part sortir pour déjeuner  
j'étais pour avoir de la closerie dans  
ma chambre attendant le retour de  
mon Sigfried et maite. J'ai bien essayé  
d'aller me baigner seule mais la  
ville la plage était gardée de nuit  
soldats. J'ai bien essayé de me baigner  
de nuit mais c'était impossible.

tu ne pourrais pas t'imaginer ce que  
 c'est que de manger, seule femme, dans  
 une salle de restaurant, au milieu de  
 militaires. Je n'osais lever les yeux de  
 mon assiette et se sentir regardée  
 pendant que l'on mange te fait  
 devenir malade. Parce que par de  
 femmes aiment des bonnes femmes  
 d'un certain âge qui me regardaient  
 de travers. Il y avait bien de la  
 jeunesse mais la cum on me regardait  
 en chien de faïence. Arrête parler de  
 "mon service militaire"

Tit s'est mis à l'École des Beaux Arts.  
 Ça marche. A moment qu'on lui propose  
 une situation mirabolante, il continue  
 à l'École. Ce sera long ! Il travaille  
 également chez des Architectes. Enfin  
 tu connais le vicieux ayant été  
 aussi presque diplômé. Nous recherchons

un appartement. Nous aimions être chez  
nous. Certaines personnes ne comprennent  
pas que nous voulions quitter la rue  
cabanis puisque il y a de la place.  
D'abord il n'y en a pas tant que  
cela! il faut faire la queue pour la  
salle de bain, si Tit. a envie de  
se ballader en petite tenue, il ne  
le peut pas (ce n'est pas qu'il soit  
contenu des faits) et puis l'on  
entend tout ce qui se passe dans  
les chambres. Et puis enfin, c'est  
bien compréhensible que nous ayons  
envie d'un endroit où nous que  
nous arrangerons selon notre goût et  
où nous vivrons selon notre goût. Pendant  
une journée entière au lit ou  
dormir à 1 h du matin etc...  
Et puis il y a quelques frictions  
entre Maman et moi. J'ai envie  
de la recevoir, si tu peux le faire

le moyen de faire autrement elle ne  
fait rien ou presque et ne laisse aller  
Elle n'est ni chouette ni elle faisait  
ce qu'il faut pour moi car  
malgré ses 45 printemps elle est encore  
très bien. Ce que lui faudrait c'est  
un homme qui s'occupe d'elle  
la sorte et la ten de son état  
comatense ou presque. Te la recon  
souvent mais moi je suis bruyant  
et je dis parfois ce qu'il ne faut

travail à mi-temps, quelque chose  
d'agréable qui t'oblige à sortir à  
se promener, à voir des films etc...  
La maison est évidemment moins gaie  
qu'avant et nous sommes pourtant  
encore là ! que ma ce lorsqu'il  
n'y aura plus que Nelly qui n'est

presque jamais la, sortant avec Ramaz.  
Et puis il y a aussi une chose, les  
femmes critiquent Maman, à la voir  
restée sans rien faire - Je me permets  
moi de critiquer, mais je refuse  
d'entendre les autres le faire.

Les Bibest Monastier sont presque à  
côté de nous, exactement dans  
l'immeuble en face des mitro Olavie.  
Ils ont trouvé un appartement  
mais avec tiens-toi bien 1 million  
six cent mille francs de reprise. C'est  
faux. C'est le grand-père qui a  
prêté l'argent qui les rembourse à  
raison de 10.000 francs par mois.  
Ils ont reçu beaucoup de cadeaux  
et sont muettes et montés en vaiselle.  
Nous les voyons souvent. Nelly a  
fait une école d'esthéticienne qui a

donc 3 mois. Cela lui plaisait beaucoup.  
Mais en sortant, elle n'a trouvé aucune  
place. Par une de mes amies, j'  
lui ai trouvé une place de vendeuse  
de butante en attendant. Mais finalement,  
être vendeuse, lui plaisait  
mieux. Elle travaille depuis lundi.  
Nina est toujours dans la même  
boite. Elle attend avec impatience  
que Bernard gagne assez pour  
ne plus travailler.  
Même est toujours la même, heureusement!  
Quant à moi, j'ai changé de métier.  
Je suis mannequin, ce n'est pas  
le début évidemment dans la carrière  
mais j'espère que cela marchera, on  
peut gagner beaucoup d'argent et  
c'est un métier fatiguant mais  
agréable et féminin. Et bien plus

intéressant que le mitie de zinitaire  
où l'on met le dernier sur une  
chaise toute une journée.

J'ai commencé au début du mois  
de Novembre et j'ai travaillé jusqu'au  
début du mois de Mars j'en  
en chômage depuis mais j'ai  
des tas de démarches pour retrouver  
quelque chose les cabines de mannequin  
ne se forment que fin Mai. Je  
dois faire des essais de photos la  
semaine prochaine. La photo rappele  
encore plus. Pourquoi que cela marche.  
Cela me plaît beaucoup!

que te racontes encore! Nous voyons  
assez souvent Louis et Nathela.

Nathela a changé de boîte et  
gagne maintenant 150.000 - par mois.  
ce n'est pas mal!

Depêche toi d'écrire et de nous  
raconter ce que tu vois! Le Brésil  
te plaît-il?

Mon vieux "Eduardo" je vais te  
laisser, écris vite si tu le peux.  
Je t'embrasse très très fort et  
souhaite de faire plein de bon  
travail en tous jours.  
Amich.

My old "Eduardo"

Everybody was very happy for receiving news from you. I know that Grand-ma and Mother have already written and also Nina and Nelly. ~~XXX~~ Therefore I am the last one, but that don't mean I am not thinking to you. It is nearly one year you are gone but nevertheless the time past very fast. Everyone must have already told you the principal, does no matter if I wander.

Past 15 August, I join TIFI (husband) in Algeria, and went back together in the early days from October. One ~~full~~ year without seen each other but one letter every single day and we met again like we never were separated or almost. That funny to see TIFI in his s/lieutenant functions, commanding a section. Such plaisir to see him again. Now when those gentlemen are speaking military duty I may join them.

Officer's wife life is not so desagregable after all. We are pampered. The first month we were on the beach. I like warm weather and had more as I was asking for. TIFI was living at 5am every morning to joining his section 25 km (16 miles) from where I was and return only at 4 p.m. The resources were fast drained off. The beach, and even we could not go very far because the fellaghasi

In short, going to eat for lunch that was all, I was almost inclosed in my room waiting the return of my Lord and Master. I have try, all right, to going swim alone, but the town, the beach was flooded with solders. I had given up very fast.

I don't think you can imazined a woman alone in a restaurant room eating surrounded with solders. The felling from every eyes watching you make the people clumsy. There were very few women which were looking to me not very friendly. Enough speaking from my "military duty".

TIFI has been return at Ecole des Beaux-Arts. If no one will proposing him a very good job he will he is determin to follow the school. That will be long. Some time he is working for some architects. We are looking for an apartement, we will like to be in our own. Few peoples do not undersand why are wishing to live this place. Mother and me have sometime few words and we are not always agree. I wish to shake her a little, and if you could do that, with a letter do not be afraid. She will be so nice if she only would try to be thiner. I think she need a man who can take a care of her, remove her from that comatose spirit. I did shake her several time but I am to abrupt and I am saying what I must not. I would like to find a job for her, which will oblige her to go out side and see peoples.

The house is less merry today than before, but what will be when Nelly will take off. She already goes almost every days with Ramaz. And something else too, peoples are criticizing Mother because she is not doing anything. I may criticize but I forbid to the others to criticize my mother.

The Monestiers are living not far from here, exactly in the building who face the subway Glaciers. They have found an apartemer but with 1 million six hundred thousand francs for the key. Crazy is not? The grand father loan the money and they repay him with 10 000 frs a month. They have ~~XXXXXX~~ receive many present for the marriage and they have furniture and everything they need. ~~XXXXXXXXXX~~ We see them very often.

Nelly follow an esthetiq's school but she has not found job yet in that line, so she work as salesmaid since monday. Nina is still working in the same company. She is waiting that Bernard earn more money to quit the job.

Meme is always in the same shape, fortunatly. I am mannequin now. Don't laugh at me. I hope this job will go very good. Fatiguing job but agreable and feminin. Certainly much more interesting ~~than~~ than secretary. Have your behind one whole day is not very funny. I must make some photo test next week. It is ~~XXXX~~ possible to earn more money with that and I like it very much.

What can I say more. We have seen Nathela and Louis. Nathela now earn 150 000 frs a month. That is not so bad.

Rush us a letter and tell us what are you doing? How like you Brasil.

My old "Eduardo" I will live you now and write us if you can

I kiss you very very strongly and hope I will be able to kiss you for good some of this days.

ANNICK

Very dear "Eduardo"

We were starting to asking us if you were still on this planet or on the moon.

Since your little word sended right after your departur we were without news. I had never receive ~~my~~ your first letter and was a little mad after you because Loulou told me that Athico had news from you and you were in South-America. I ignore completely if Nathela has receive your letter but I will write to her. I ignore also where live the others people and I will be glade if you can give them adress. Already 10 month since you are gone. The time past with an incredible speed. Beside Nina's marige, which was a very well, nothing interesting.

Nina and Bernard have found an apartement very close from our house, Boulevard Auguste Blanqui, corner rue de la Sante, the building which is standing behind the gas-station. You see ?

TIFI and Annick are still with us but wish to find some place to go.

Yesterday evening the whole family was together plus Loulou and Magy to celebret my 45 springs and just this morning a letter from you. It was lucky your letter was still in one pice when I screamed 'a letter from you'

You can be sure to receive news from the whole family and we thank you for your love for us.

My august husband had catched again a double-pneumonia and that will keep him until september, therefore that plunge us in difficulties to the neck....and you may imagine with which happiness I have read your letter. You are certainly the only one to be like that in our world. God bless you and ~~we~~ must take account for the remission of your offences...Alleluia !

I have stop this letter yesterday evening. Odile and Magy were here, we had diner together and went to the movie. James Stewart was starring.

What say next, you know our life, nothing is change. I am waiting impatiently another letter of you to tell us what are you doing. That will be so nice if you could be here for the end of the year. Until then I kiss you lovingly.
